ARKANSAS

Arkansas (State of)
Bonds Sold by RFC—Another
step in the distribution to the public of the \$136,330,557 State highway refunding bonds was taken on Nov. 6 when arrangements were consummated where-

The bonds taken Nov. 6 constitute \$28,694,000 of adds. due serially from April 1, 1944 to 1969; \$2,146,000 of 3s, due serially from April 1, 1969 to 1972, and \$7,160,000, term bonds, due April 1, 1972, callable annually from 1943 to 1971.

Halsey, Stuart & Co., Inc., was engaged on the 6th in the formation of a nation-wide syndicate to market the bonds and late on that date the group consisted of about 166 members. It was expected that formal offering of the bonds would be made on Nov. 7 on a tentative price scale as follows: The \$20,694,000 of 31/4s, priced to yield from 0.90 to 2.85%

for maturities ranging from 1944 to 1969; the \$2,146,000 of serial 3s, priced at 103½ for the 1969-1972 maturities, and the \$7,160,000 of term 31/4s, priced to yield from 0.75 to 2.90%, according to the optional dates ranging from 1943 to 1971.

large syndicate headed by the Chase National Bank to purchase more than half of the issue with the remainder going to the Federal agency. Soon after this purchase, the Chase National Bank syndicate purchased from the RFC a block of \$35,000,000 and Halsey, Stuart & Co., Inc., and associates took some \$13,538,000, both blocks being reoffered to the public.

Later the Halsey-Stuart group purchased another block of about \$20,000,000, which the firm still retains. A substantial amount of the issue had been sold by the RFC to special institutions and funds in the State of Arkansas. The profit made by the RFC on

the \$30,000,000 was \$1,800,000. The total amount of the issue bought by the RFC was \$136.330,-557. Of this \$122,190,557 has been sold. The profit made so far has been \$3,399,295.

redeemed thereafter and before maturity.

Notice of redemption of any or all of said bonds shall be given by publication once each week for two successive weeks, the tirst publication to be at least 30 days prior to the date of redemption; such publication to be made in one newspaper published and of general circulation in the Bor-ough of Manhattan, City and State of New York, and in one newspaper published and of general circulation in the City of Chicago, Ill. Any such notice of redemption shall with substantial accuracy: Designate the date and place of redemption, such place to be the office of the Deposi-tary, the Continental Illinois Bank & Trust Co., Chicago; if the bonds to be redeemed are less than all of those outstanding, designate the numbers and the aggregate principal amount of such bonds; state that on the designated date of redemption said bonds will be redeemed by payment of principal thereof and the accrued interest thereon, plus the applicable redemption premium, if any, and that from and after the designated redemption date interest in respect of all the shall cease. If sinking fund moneys are on hand sufficient to redeem some but not all of said bonds at any time when such bonds become redeemable under the terms of the ordinance, the said bonds to be redeemed shall be designated by lot in any usual manner by the Depositary.

The bonds will be payable solely from the net revenue de-rived from operation of the bridge and shall not in any event constitute an indebtedness of the city and "neither the taxing power nor the credit of the city shall be pledged to the payment of either principal or interest on the bonds. The refinancing is designed to effect a saving in interest cost to the city" and will permit the accumulation of earnings more rapidly for the calling and redemption of bonds prior to the expressed maturity date thus accelerating the time when said bridge may be operated as a free

Streator, Ill.

Election On \$1,495,000 Water Bond Issue—A special election will be held Dec. 9 on the question of issuing \$1,495,000 3\% water revenue bonds to finance purchase of the plant and facili-ties of the Northern Illinois Water Corporation—v. 154, p. 739. \$60,000,000 Bond Issue Amendment Apparently Approved — Walter T. Brown, Secretary to the Governor, reports that official result of the vote Nov. 4 on the \$60,000,000 highway and parkways bond issue amendment must await determination by the State Board of Canvassers which is expected to meet about Dec. 1. Unofficial reports indicate that the measure was heavily endorsed.

Poughkeepsie, N. Y.

Refunding Approved-Harry D. Yates, Deputy State Comptroller, issued an order on Nov. 5 authorizing the city to refund \$150,000 of bonds maturing next year. The new bonds will mature as follows: \$5,000 from 1942 to 1945 incl. and \$10,000 from 1946 to 1958

Southport School District No. 3, N. Y.

Must Vote Again On Bond Issue-Voters will be required at another special meeting to be held soon to pass on the question of issuing \$35,000 bonds in connection with proposed improvements to the Coldbrook Park School. The issue was approved at a previous meeting on Oct. 21. The resolution adopted at that time, however, did not meet with approval of the attorneys acting the financial institutions asked to handle the bonds. The new resolution has been approved by the attorneys and will contain a provision that the bonds will not be issued unless the proposed Federal contribution of \$54,000 toward cost of the project is received.

(Continued on page 949)

Municipal Bond Sales In October

Long-term financing by States and municipalities during October involved the sale of issues having an aggregate par value of \$64,168,227. While the total was considerably larger than the output in the preceding month, when the figure was only \$51,430,171, an analysis of the past month's borrowings discloses that the better showing was due principally to the sale in that period of several unusually large offerings. These included the City of Philadelphia award of \$14,100,000 and the Asbury Park flotation of \$10,230,000. In the earlier month there was only one issue of comparable nature, that of \$9,000,000 by the State of Maryland Roads Commission.

The results of last month's sales, moreover, again demonstrated the significant role played by refunding operations in the field of municipal financing. More than half of the grand total consisted of borrowing for that purpose, a breakdown showing that refinancing accounted for \$35,363,501, with new capital issues making up the remaining \$28,804,726 of the grand output. Furthermore, there is every indication of the continuance of the emphasis on refunding operations rather than new capital borrowings for an indefinite period. This is seen in the fact that public bodies, too, will undoubtedly be affected by the government's priorities on materials incident to the defense program. Press reports state that a number of municipalities already have been obliged to defer projects because of inability to obtain assurances that the necessary materials would be immediately available

The sales last month included the following issues of \$1,000,000

The sales last month included the following issues of \$1,000,000 or more:

\$14,100,000 Philadelphia, Pa., bonds were awarded to a syndicate managed jointly by Drexel & Co. of Philadelphia, and Lehman Bros., New York, on a bid of 100,215 for \$10,716,000 1½s, due serially from 1949 to 1967, incl., and \$3,334,000 4s, maturing from 1943 to 1948 incl., making a net interest cost of about 1,653%. This was the lowest average rate ever obtained by the city for long-term borrowing. The successful bidders re-offered the bonds at prices to yield from 0.25% to 1,80%, according to coupon rate and date of maturity. The same syndicate incidentally, is also conducting the \$131,064,000 refunding operation being effected by the city on an exchange basis. The program is well along toward completion. The recent borrowing was a separate operation and consisted of \$7,100,000 refunding and \$7,000,000 new capital for water purposes.

10,230,000 Asbury Park, N. J., 3½% refunding general and revenue bonds were-sold to a large syndicate headed by B. J. Van Ingen & Co., Inc., New York, at a price of 96.01. A block of \$3,900,000 has a maturity of Dec. 1, 1972, and \$6,330,000 are scheduled to mature serially from 1942 to 1972 incl. The bonds are subject to redemption prior to maturity under certain conditions. On the re-offering, the bankers priced the series of \$6,330,000 from a yield of 1,56% to a price of 99, according to call dates.

5,000,000 Boston Metropolitan District, Mass., bonds were sold to a group managed by the Union Securities Corp., New York, as 1½s, at a price of 97.51 (a basis of about 1,38%). Due serially from 1942 to 1966, incl. Re-offered to yield from 0.15% to 1.35% for the maturities from 1942 to 1965, incl., and a price of 90.50, according to maturity.

2,300,000 South Carolina (State of) serial highway certificates of indebtedness purchased by an account headed by Halsey, Stuart & Co., Inc., New York, and associates, as 3s, at 100.30, a basis of about 2.98%. Due from 1943 to 1968, incl. Re-offered from a yield of 1%

accrued interest.

1,268,000 Southeast Arkansas Levee District, Ark., refunding bonds sold to W. R. Stephens Investments of Little Rock, and issued to permit the district to redeem 3¼% and 4% bonds held by the Reconstruction Finance Corporation. The new issue is due serially from 1941 to 1972, incl.

1,250,000 Stamford (City of). Conn., sewer, sewage treatment plant and garbage incinerator bonds awarded to a group managed by Phelps, Fenn & Co., New York, as 1¼s, at 100.295, a basis of about 1.22%. Due annually from 1942 to 1961, incl., and re-offered to yield from 0.15% to 1.30%, according to maturity.

Extensive financing by local housing authorities resulted in increasing the aggregate of temporary borrowings by States and municipalities in October to a figure of \$92,308,810. The housing units accounted for \$85,013,000 of the month's output. As was the case in previous operations of this nature, the bulk of the various issues was purchased by a syndicate headed by the Chemical Bank & Trust Co., New York. Then, too, the extremely low interest rates obtained by the borrowers reflects the continued ease that prevails in the market for temporary credit and the popularity of such paper as bank investments.

The Canadian municipal bond market was principally active in October as the result of the public offering of several Provincial issues, with the bulk of the borrowing being for refunding purposes. A syndicate headed by Wood, Gundy & Co., Toronto, brought out an issue of \$10,500,000 on behalf of the Province of Ontario and an account managed by the Midland Securities Co., Toronto, underwrote an issue of \$4,500,000 for New Brunswick. These loans made up most of the \$15,991,406 of issues placed by Canadian public bodies last month. In the matter of temporary financing, the Dominion govern-

ment was responsible for the total output of \$325,000,000. Aside from the foregoing, the past month also marked the re-ported agreement between a bondholders' committee and the Quebec Municipal Commission on a plan for refinancing the City of Mont-real's funded and "frozen" bank debt. Some of the details of the program, as reported in the Canadian press, were given in the "Chronpage 880. Additional features are reported in this issue. Because of the involved nature of the proposal and the wide distribution accorded the city's obligations in various countries, considerable delay is expected to occur before the plan is finally consummated. As of April 30, 1941, the city is said to have defaulted on \$13,600,000 of funded debt, all payable in Canadian currency.

No United States Possession financing was negotiated in this country in October.

The following is a comparison of all the various forms of loans

	1941	1940	1939	1938	1837
	\$	\$	8	8	\$
Permanent loans	64,168,227	177,142,181	52,480,059	105,167,119	28.097.090

The number of municipalities in the United States emitting longterm bonds and the number of separate issues made during October, 1941, were 282 and 330, respectively. This contrasts with 308 and 373 for September, 1941, and 305 and 368 for October, 1940.

For comparative purposes we add the following table, showing the aggregate disposals of long-term obligations by States and municipalities in the United States for October and the 10 months for a series of years.

	Month of October	For the Ten Months		Month of October	For the Ten Months
1941	\$64,168,227	\$823,115,074	1925	\$79,237,656	\$1,174,724,056

Westchester County (P. O. White Plains), N. Y.

Plans To Reduce Supervisors
Board Rejected—The voters on
Nov. 4 rejected the proposed
charter amendment to abolish the county's present Board of Supervisors, with 44 members, and substitute a smaller Board of 11 members.

NORTH CAROLINA

Guilford County (P. O. Greens-

Bond Sale—The \$75,000 coupon semi-ann. school building bonds offered for sale on Nov 4 v. 154, offered for sale on Nov 4—v. 154, p. 786—were awarded jointly to Campbell, Phelps & Co. of New York, and the First Securities Corp. of Durham, paying a premium of \$100, equal to 100.133, a net interest cost of about 1.74%, on the bonds divided as follows: on the bonds divided as follows: \$50,000 as 2s, due April 1; \$3,000 in 1943 to 1952; \$5,000, 1953 to 1956; the remaining \$25,000 as 1½s, due \$5,000 from April 1, 1957 to 1961. 5.00 1.38

Hickory, N. C.

Bond Issuance Contemplated—
The Hickory "Record" of Oct. 22

1.16 reported in part as follows: The City Board of Aldermen passed on first reading Tuesday night two resolutions requesting the Local Government Commission to sell three issues of City of Hickory bonds totaling \$75,000.

Two of the issues are municipal airport bonds in the amount of \$50,000, which were authorized by the voters at a special election held Feb. 24. The third issue is in the amount of \$25,000 refunding bonds, which were de-cided on by the Board at a ses-

sion in August. One issue of the airport bonds is for \$20,000 for the purchase of additional land, grading, and drainage, and the other is for \$30,000 of bonds for additional equipment, buildings, and other improvements. The bonds would be in denominations of \$1,000 all be in denominations of \$1,000 each, maturing \$2,000 each year from 1944 to 1948 incl., and \$4,000 each year from 1949 through 1958 incl.

The refunding bonds are to be dated to mature \$12,000 in 1960 and \$13,000 in 1961.

Bond Call—Harvey Kennedy,
Town Clerk, states that the following refunding bonds are being called for payment on Dec. 1, at par and accrued interest: \$208,000 sewer and general, and \$315,500 public improvement and street bonds. Dated June 1, 1937. Due on June 1, 1967. Said bonds are to be redeemed at the Central Hanover Bank & Trust Co., New York City, on presentation and surrender, with all unmatured coupons attached.

Bonds Offered to Public—The \$537,000 314% and 3% general and water refunding bonds awarded District N. 1 (P. O. Sidney), N. Y.

Bond Offering — Benjamin I.

District Clark will receive described in detail v. 154

DIVIDENDS

Dividends are grouped in two separate tables. In the first we bring together all the dividends announced the current week. Then we follow with a second table in which we show the dividends previously announced, but which have not yet been paid. Further details and record of past dividend payments in many cases are given under the company name in our "General Corporation and Investment News Department" in the week when declared.

The dividends announced this week are:

General Corporation and Investment News RAILROAD - PUBLIC UTILITY - INDUSTRIAL - INSURANCE - MISCELLANEOUS

Air Associates, Inc.-Plant taken over by Army-Following orders issued by President Roosevelt Oct. 30 the Army took over the Bendix, N. J., plant of the company Oct. 31.

The plant has been harassed by labor disputes since a strike of CIO United Automobile Workers started on Sept. 30.

The President directed Secretary of War Stimson to take over operation of the plant and retain control as long as may be required in the interest of national defense.

Mr. Roosevelt accompanied the announcement of the taking over of the aircraft factory with the terse statement that: "Our country is in danger."

in danger."

It was the third time the President has resorted to such drastic action to deal with time-consuming disputes between labor and management which have affected production in defense industries.

The first occasion was last spring when he ordered the Army to take over the North America Aviation plant at Inglewood, Calit., where war plane production had been halted by a CIO walkout.

The second occasion was when the Navy assumed control of the Federal Shipbuilding & Drydock yards at Kearny, N. J., after the management and the CIO ship builders union became deadlocked in another industrial dispute.—V. 154, p. 650.

Alabama & Florida RR.—Abandonment—

The ICC on Oct. 24 issued a certificate permitting abandonment by the company of its entire line of railroad, approximately 29 miles, extending from Cowarts, Houston County, Ala., to Greenwood, Jackson County, Fla.—V. 144, p. 3658.

American Smelting & Refining Co.-Obituary-Simon Guggenheim, President of this Company since 1919, and former U. S. Senator from Colorado (1907-1913), died on Nov. 2. He was 73 years old.—V. 153, p. 1267.

American Steel Foundries Co.-25-Cent Dividend-

Directors have declared a dividend of 25 cents per share on the common stock payable Dec. 15 to holders of record Nov. 29. This compares with 75 cents paid on Sept. 15, last; 25 cents paid in each of the two preceding quarters; 75 cents paid on Dec. 16, 1940, and 25 cents paid on Sept. 30, June 29 and March 30, 1940, this latter being the first dividend paid on the common stock since March 31, 1938 when 25 cents per share was also distributed.—V. 154, p. 146.

American Telephone & Telegraph Co.-Gets Authority to acquire assets of Units-

Company received authority from the Federal Communications Commission Nov. 4 to acquire the assets aggregating nearly \$25,000,000 of companies in Georgia, Kentucky, Mississippi, South Carolina and

A. T. & T. owns all the stock of the five companies. The subsidiary companies are being dissolved.

The reported assets of the five companies included:

Georgia \$6,357.007; Kentucky \$7,675,430; Mississippi \$1,869,131; South Carolina \$5,147,847, and Tennessee \$3,823,079.

The parent company told the FCC that the dissolution of the five subsidiaries would result in no change in the method of control, maintenance or operation of the lines involved.

Gain In Phones-

There was a gain of about 120,300 telephones in service in the principal telephone substidiaries of the American Telephone and Telegraph Co. included in the Bell System during the month of October,

The gain for the previous month was 142,500 and for October, 1940, 101,400. The net gain for ten months this year totals 1,128,300 as against 748,300 for the same period in 1940. At the end of October this year there were about 18,609,400 telephones in the Bell System. The gain for October, 1941, was the largest for the month of October in the history of the Bell System, the next largest October gain having been 107,100 in 1936.—V. 154, p. 745.

American Tobacco Co.—Tobacco Companies Attack Trust Verdict—Allege Court Errors, Call Evidence Slight-

Motions attacking convictions of 17 defendants in the tobacco anti-trust trial, asserting that the verdict was not supported by sufficient evidence and enumerating points on which rulings of the court allegedly were in error, were filed Oct. 29 in Federal District Court

at Lexington, Ky.

Arguments on the motions are to be heard by Judge H. Church Ford on Nov. 17. Sentences will be pronounced at that time if the motions are overruled.

The defendants, the American Tobacco Co., Liggett & Myers Tobacco Co., R. J. Reynolds Tobacco Co. and American Suppliers, Inc., an American Tobacco subsidiary, and 13 executives of these companies, were found guilty by a jury.

A motion filed by American Tobacco, American Suppliers and their executives listed 24 alleged errors in the 20-week trial, declared the cause was triable only under grand jury indictment and not under information filed by government attorneys, declared there was a variance between charges and evidence introduced by the government and termed enumeration of charges in the information filed duplicitous.

Alleging 27 errors, Reynolds' motion for a new trial attacked the small-town jury as a "purported" one lacking validity because it included two men originally named as alternates.

The Liggett & Myers motion listed 20 causes for a new trial, contended that instructions given the jury by Judge Ford were "prejudicial" and complained of "impropriety of government counsel."

Anaconda Copper Mining Co.—Bank Loans Reduced \$11,000,000 to \$20,000,000

\$11,000,000 to \$20,000,000

The company last month paid off \$11,000,000 of its 1¾% serial bank loans, reducing the total outstanding to \$20,000,000.

The October payment brought total repayments for 1941 to \$15,-000,000, the company having paid a regular instalment of \$4,000,000 on April 11. As of Dec. 31, 1940, these bank loans totaled \$35,000,000, repayable \$4,000,000 annually each April 11, from 1941 to 1944, inclusive, and \$19,000,000 April 11, 1945.

Company has further reduced its outsanding debt this year by redeeming \$3,090,000 of 4½% sinking fund debentures cutting the total outstanding to \$935,000. In addition, the company this year paid off the remaining outstanding debt of Chile Copper which amounted to \$3,800,000.

As a result of these several repayments the company so far this

As a result of these several repayments the company so far this year has cut its debt by a total of \$21,890,000.—V. 154, p. 83.

Associated Gas & Electric Co.—Trustees Submit Plan to Dismantle System-Four New Systems Planned-

A sweeping reorganization, both corporate and physical, of the Associated Gas and Electric System was proposed Qct. 31 by Willard L. Thorp and Denis J. Driscoll, trustees in reorganization.

The trustees, acting under the requirements of the Chandler Act, submitted a comprehensive plan for the system to Federal Judge Vincent L. Leibell aimed at meeting the requirements of the law with respect to concerns undergoing reorganization, and the integration, or "death sentence," provisions of the Public Utility Holding Company Act. While the report is not a definitive reorganization plan, the trustees announced, it sets out clearly the underlying basis for such plan to be suggested at a later date. be suggested at a later date.

be suggested at a later date.

In essence the plan (comprising an 80-page report) calls for the dismantling of the 26-State utility empire built up by H. C. Hopson

over a period of 20 years. Four new and separate utility systems are proposed; many properties are to be sold, outstanding indebtedness of the complicated structure is to be reduced, and the Associated Gas & Electric Corp. is scheduled to pass from existence.

The four new systems proposed by the trustees are as follows:

1. New York-Northern Pennsylvania System—This would include the New York State Electric & Gas Corp, Tracey Development Co., Keuka Lake Power Corp., Bradford Electric Co., Northern Pennsylvania Power Co., and Waverly Electric Light & Power Co.

2. Eastern Pennsylvania-New Jersey System—This would comprise Metropolitan Edison Co., Edison Light & Power Co., York Steam Heating Co., Glen Rock Electric Light & Power Co., and the New Jersey Power & Light Co.

3. Western Pennsylvania System—This would consist of Pennsylvania

3. Western Pennsylvania System—This would consist of Pennsylvania Electric Co., Eric Lighting Co., Keystone Public Service Co., Clarion River Power Co., Youghlogheny Hydro-Electric Co., Solar Electric Co., Logan Light, Heat & Power Co., Johnstown Fuel Supply Co., Penelec Water Co., Pennsylvania Edison Co., and Blair Engineering & Sup-

ply Co.

4. Florida-Georgia System—This would comprise Florida Power Corp.,
Florida Public Service Co., and Georgia Power & Light Co.

Such systems, the trustees declared, in their final form would have a
strong engineering and economic basis. To accomplish a sound economic structure, according to the trustees, it will be necessary to
obtain substantial amounts of cash to reduce the excessive debt that
overhangs various operating companies and intermediate holding companies. It is expected that the major part of such cash will be
obtained from the sale of properties not included in the four proposed.

obtained from the sale of properties not included in the four proposed systems.

"Such sales," the trustees declared, "will be made only at such prices, at such times, and in such manner as good business judgment, may permit, and will be subject to approval of appropriate regulatory bodies and the court. To the extent that properties cannot be sold on a satisfactory basis, or claims cannot be realized upon before actual reorganization, such assets or claims would be placed in a liquidating company for conversion into cash over a period of time."

Ownership of the proposed four new systems would be distributed in the form of new securities to security holders entitled to share in the A. G. & E. estate, according to the plan. "While it cannot now be predicted," the report continued, "some cash may be accumulated from this program and, if so, it would also be distributed."

Properties scheduled for sale were listed by the trustees as follows: Jersey Central Power & Light Co., Kentucky-Tennessee Light & Power Co., Manila Electric Co., Escudero Electric Service Co., Rochester Gas & Electric Corp., South Carolinis Gas & Electric Co., Excington Water Power Co., Staten Island Edison Corp., Tide Water Power Co., and Virg.nia Public Service Co. In addition, certain smaller properties. within the New York-New Jersey-Pennsylvania area, which cannot be operated economically his coffnection with the Service Co. In addition, certain smaller properties.

Weekly Output-

9 Mos End Sent 30-

The Atlantic Utility Service Corp. reports that for the week ended Oct. 31, net electric output of the Associated Gas and Electric group was 125,965,723 units (kwh). This is an increase of 19,106,527 units or 17.9% above production of 106,859,196 units a year ago.—V. 154,

Atlantic City Gas Co.—Tenders—

The Grard Trust Co., Philadelphia, Pa., will until Dec. 1. receive bids for the sale to it of sufficient first mortgage 5% s. f. gold bonds due 1960 to exhaust the sum of \$25,303 at price not exceeding 105 and accrued interest.—V. 136, p. 1544.

Atlantic Gulf & West Indies SS. Lines-Official Promoted-

Charles H. C. Pearsell, Vice-President of the company, has been named to a similar post in three subsidiary companies and given complete charge of their steamship and terminal activities in the West Indies and Mexico. He left on Nov. 5 for Havana, where his head-quarters will be for the present, and later he is expected to spend long periods in other important Southern ports served by the A. O. W. I. group of lines.

The company's board of directors met on Nov. 3 and decided on the assignment. On Nov. 4 Edgar S. Bloom, President, announced that Mr. Pearsall would take the title of Vice-President in the Cuba Mail Line, the New York & Porto Rico Steamship Co., and the Clyde-Mallory Lines.—V. 154, D. 580.

Lines.-V. 154. p. 580.

Auto Ordnance Corp.—Backlog—

Company reports that its backlog for Thompson sub-machines guns currently amounts to \$23,000,000. The 250,000th gun produced by the company since the early part of 1940 was recently delivered to the Army Ordnance Department. Company has 900 employees at its Bridgeport plant.—V. 154, p. 179, 651; V. 151, p. 2933.

Avondale Mills-Officials-

At the recent annual stockholders' meeting the following directors were reelected: Eugene Anderson, S. Y. Austin, Thos. Bowron, B. B. Comer Jr., B. B. Comer 3d, Donald Comer, Hugh M. Comer, Otto Marx, Erskine Ramsay, H. C. Ryding, J. Craig Smith, M. H. Sterne. At the directors' meeting immediately following the stockholders' meeting, C. S. Northern Jr. and J. W. Solomon, formerly Assistant Vice-Presidents, were elected Vice-Presidents in charge of yarn sales and cloth sales, respectively. The following officers were reelected:

Donald Comer, Chairman of the Board; S. Y. Austin, President; Hugh M. Comer, Executive Vice-President; J. Craig Smith, Vice-President and Treasurer; E. S. Dunn, Vice-President; J. E. Warren, Assistant Vice-President; A. F. Mullins Jr., Assistant Vice-President and Secre-

tary; E. M. Timmons, Assistant Secretary; A. D. McMillan, Assistant Secretary; B. B. Comer Jr., Chairman of the Finance Committee; H. C. Ryding, Vice-President; Thos. Bowron, Vice-President; Erskine Ramsay, Vice-President.—V. 154, p. 83.

The proportion of such increase in taxes applicable to the month of September is \$244,800.—V. 154, p. 425.

Bendix Aviation Corp.—Factory at Bendix Taken

Bendix Aviation Corp.—Factory at Bendix Taken
Over by U. S. Army Not Part of Corporation—
The company on Nov. 4 issued the following statement:
Recently, many newspapers have been carrying headlines that are unintentionally misleading, such as: "Strike Cripples Bendix Pactory,"
'Orders Bendix Plant Seized," "Army Takes Over Bendix Plant."
These newspaper reports have created an unfortunate and wholly incorrect impression that the factory involved is part of Bendix Corp.
It is not. Let us make the fact unmistakably clear.
The seized plant has no connection whatsoever with Bendix Aviation Corp. It has been referred to, confusingly, in the press as a "Bendix plant" simply because it is located in the Borough of Bendix, N. J.

One of our plants is located there, too, In fact, the town was named after Bendix Aviation Corp.; but it contains other entirely independent business enterprises, including the aircraft accessory factory which the Army recently took over. There is no connection between that factory and ours, except their common location in Bendix, N. J.

Bendix Aviation Corp. has 20 busy plants, employing 35,000 men. spread across the face of America from the Atlantic Seaboard to California. In every one of these plants, men are working—day and night, in nearly every case—to produce a vast number of devices vital to the operation of aircraft, tanks, trucks, ships and other military

and naval equipment.

Not one of these Bendix Aviation Corp. plants is involved in any strike or other difficulties that might impair defense production.

At lathe and bench, at desk and drawing board. Bendix men everywhere are working at "all-out" speed to do their part of America's Big Job. In fairness to them, and in recognition of our responsibilities to defense, we publish these facts to correct an unfortunate mistaken identity.—V. 154, p. 147.

Directors have declared a dividend of \$1 per share on the common stock, payable Dec. 1 to holders of record Nov. 15. Like amounts were paid in preceding quarters.—V. 153, p. 829.

Carrier Corp.—Unfilled Orders—

Unfilled orders on the books of the corporation as of Oct. 27 totaled \$10,345,000, the highest level in the company's history, J. I. Lyle, President, announced.

The company, effective this year, will close its books on Oct. 31, the end of its natural business year, instead of using the regular calendar year, Mr. Lyle said. "With our fiscal year ending Oct. 31 we will be able to take inventory and complete audits before the step-up in factory activity which usually occurs early in the calendar year," he

Mr. Lyle also revealed that at the present time 51.2% of current Carrier production is defense work.—V. 154, p. 147.

Central Illinois Public Service Co .- Additional Information Regarding \$38,000.000 1st Mtge. Bonds.— In our issue of Nov. 1, page 859, we notes the offering of \$38.000,000 1st mtge. bonds, series A, 3% of 1971, by an investment group headed by Halsey Stuart & Co., Inc., at the price of 107 and int.

Further details regarding the offering follow:

Purpose—The proceeds from the sale of the bonds (\$40,208,086), to be received by the company, together with such amount, if any, from the general funds of the company as may be required, are to be applied to the redemption, at 105%4%, on or about 30 days after the delivery of the bonds of Series A, of \$38,000,000 first mortgage bonds, Series A, 3%%, of the company, due Dec. 1, 1968, the redemption of which bonds will require, exclusive of accrued interest, \$40,185,000. The accrued interest on the bonds to be redeemed will be paid by the company out of its general funds.

the company out of its general funds.

Refunding of Serial Debentures—Under a loan agreement dated Oct. 2, 1941, entered into by the company with National City Bank, New York; John Hancock Mutual Life Insurance Co., Boston, and Northwestern Mutual Life Insurance Co., the company proposes to borrow \$3,000,000 from each of them and to apply the proceeds of these loans, together with other funds to the extent required, to the retirement, by payment at maturity and by redemption, of \$9,000,000 3\(^{\alpha}\) and 4\(^{\alpha}\) serial debentures of the company, due serially Dec. 1, 1948. In consideration of said loans the company proposes to issue \$9,000,000 2\(^{\alpha}\), 2\(^{\alpha}\) and 3\(^{\alpha}\) unsecured notes; \$3,000,000 of 2\(^{\alpha}\) unsecured notes, due serially April 1, 1942-Oct. 1, 1946, in semi-annual installments of \$300,000 each will be issued to National City Bank, New York \$3,000,000 2\(^{\alpha}\), unsecured notes, due serially April 1, 1947-Oct. 1, 1949, in semi-annual installments of \$350,000 each in 1949, will be issued to John Hancock Mutual Life Insurance Co. and \$3,000,000 of 3\(^{\alpha}\) unsecured notes, due serially April 1, 1950-Oct. 1, 1951, in semi-annual installments of \$750,000 each, will be issued to Northwestern-Mutual Life Insurance Co.

Additional first mortgage bonds may be issued under the indenture, subject to the restrictions therein, from time to time in any number of different series, as the board of directors may determine. The aggregate principal amount of bonds of all series which may at any one time be outstanding under the indenture is not limited.

†Company proposes to refund \$9,000,000 of 3½% and 4% serial debentures through the issuance of \$9,000,000 2%, 2¾% and 3% unsecured notes. Prior to or concurrently with the delivery of the bonds of series A now offered (a) there will be deposited, in trust, funds sufficient for the payment at maturity and/or for redemption, within 40 days after the issue and delivery of the bonds of series A offered now, of all outstanding 3½% and 4% serial debentures of the company, (b) the trust indenture under which all said serial debentures are outstanding will be delivered to the trustee under said trust indenture to take all steps necessary to call for redemption all

said serial debentures other than those maturing on Dec. 1, 1941, funds for the payment of which at maturity will be concurrently deposited.

said serial debentures other than those maturing on Dec. 1, 1941, funds for the payment of which at maturity will be concurrently deposited.

Business and History—Company is an Illinois public utility engaged principally in generating, purchasing, distributing and selling electric energy in central and southern Illinois. Company is also engaged in distributing and selling manufactured gas and ice and, to a minor extent, in furnishing water and heat, in conducting a cold storage business, and in selling gas and electric appliances and equipment. For the 12 months ended Aug. 31, 1941, the company derived 88.40% of its operating revenues of \$15, 729,447 from the sale of electricity, 6.49% from the sale of ice, and 6.72% from other activities.

At Aug. 31, 1941, the company supplied electric energy at retail to 173,900 customers in 493 communities and adjacent rural areas in 61 counties in Illinois. The 15 largest cities served and their respective populations as reported in the 1940 census are: Quincy (40,469), Mattoon (15,877), West Frankfort (12,363), Canton (11,577), Harrisburg (11,453), Herrin (9,352), Paris (9,281), Marion (9,251), Macomb (8,764), Carbondale (8,569), Taylorville (8,313), Charleston (8,197), Olney (7,831), Benton (7,372) and Beardstown (6,565). Company also sells electric energy at wholesale to 12 rural cooperatives. At the same date, the company supplied at retail natural gas to 24,313 customers in Quincy, Mattoon, Canton, Paris, Macomb, Taylorville. Charleston, Effingham, Pans, Hoopeston and 10 smaller cities and villages, manufactured gas to 1,118 customers in Beardstown, water to 1,234 customers in Effingham and central heating service to 204 customers in Taylorville. The company has no present intention of changing the general character of its business.

The territory served by the company with electricity has a population of 569,000, as estimated by the company for call mining operation of the electric interurban railway between Mattoon and Charleston. In 1912 the predecessor company bec served by the company.

The electric railway operations of Chicago and Joliet Electric Ry. Co. and the motor bus operations of Chicago and Joliet Transportation Co., two subsidiaries of the company, were discontinued in July, 1934. Since that time no transportation service has been rendered by the company or by any subsidiary of the company.

The interest charge for one year on the \$38,000,000 bonds of series A now offered will be \$1,282,500. The aggregate interest charge on the bonds and on the \$9,000,000 2%, 2%% and 3% unsecured notes to be outstanding upon completion of this financing will, for the first year during which said notes are outstanding, amount to approximately \$1,511,000. Company estimates that there will be an increase in the first year of approximately \$39,000 in amortization of debt discount, premium and expense. Net income ____ \$2,029,450 \$2,300,781 \$1,911,768 \$1,546,526

first year of approximately \$39,000 in amortization of debt discount, premium and expense.

Integration Proceedings—On March 1, 1940, the Securities and Exchange Commission began proceedings against The Middle West Corp. and its subsidiary companies to enforce the "integration" provisions of Section 11 (b) (1) of the Public Utility Holding Company Act of 1935 and named the company as a subsidiary of The Middle West Corp. in the order instituting such proceedings. Company has filed in these proceedings an answer in which it states, among other things, that it has enjoyed substantial economies by reason of the ownership of a portion of its stock by The Middle West Corp. and that the company cannot operate its business as an independent system without the loss of these economies. Company is informed that the answer filed by The Middle West Corp., asserts the right of Middle West Corp. to retain all subsidiary companies, including the company, now controlled by The Middle West Corp., and alleges the invalidity and unconstitutionality of the "integration" provisions of the Public Utility Holding Company Act of 1935. Company is informed that the answer filed by The Middle West Corp. suggests, for the consideration of the Commission, a voluntary program which contemplates the retention of the company as a subsidiary company of The Middle West Corp. In June, 1941, at hearings on this matter in Washington, D. C., before an examiner of the SEC, the President of the company testified at length with respect to the economies and savings realized by the company by reason of the fact that it is a subsidiary of Middle West Corp. and receives various essential services furnished at cost by Middle West Service Co. Company is unable to determine at this time what reflect these proceedings may ultimately have upon the company or its relationship to any other company.

Chicago Mail Order Co.—New Store—

Continuing its expansion into urban and suburban territories, com-any on Nov. 1 opened its 12th order store at 110 North Main Street, in Wheaton, Ill.

The store follows the new pattern recently adopted by the company, The store follows the new pattern recently adopted by the company, using the newest light fixtures, pastel interior decorations, and modern style furniture. The new store has an improved type swatch counter with direct flourescent illumination and stools for the convenience of the customers while studying the samples and the catalog descriptions. There is a fitting room for customers indicating the company's concentration on fashions, a package checking facility, and Enterprise extension telephones into the neighboring territories such as Elgin, Geneva, Batavia, Aurora, and other nearby communities.—V. 153, p. 831.

Cleveland & Mahoning Valley Ry.-Purchase By Erie See Erie RR .- V. 145, p. 1581.

Cleveland Ry.—Sale fails of Approval—

At a special stockholders' meeting, owners of 174,553 shares of stock voted to accept the proposal of the City of Cleveland to acquire the company for \$45 a share. A two-thirds majority, or 209,296 of the 313,944 outstanding shares, are necessary for approval.

The meeting, called by an independent group of stockholders, was adjourned until Nov. 7 to provide time for soliciting additional proxies. Three directors, a minority of the board, favor the proposed sale of the company to the city.

Another special stockholders' meeting has been called for Nov. 12 by the directors, eight of whom have opposed the proposed sale. Proxies received by the anti-sale group will be voted at this meeting.

The city's proposal provides for a \$14,128,480 loan which would be necessary to pay the stockholders \$45 a share. This would be done by issuing bonds with the traction system itself mortgaged to guarantee payment of interest and principal on the bonds out of revenue from street car and bus operations.—V. 154, p. 581.

Coca-Cola International Corp.—Common Dividend-Directors on Nov. 3 declared a dividend of \$20.85 per share on the common stock, no par value, payable Dec. 15 to holders of record Dec. 1. This compares with \$5.65 paid on Oct. 1, last; \$5.70 paid on July 1, and on April 1, last; dividend of \$21.40 was paid on Dec. 16, 1940; \$5.70 was paid on Oct. 1, 1940; \$5.80 paid on July 1 and April 1, 1940; \$23.40 on Dec. 15, 1939; \$5.80 on Oct. 2 and on July 1, 1939; \$3.85 on April 1, 1939; \$21.40 on Dec. 15, 1939; \$5.80 on Oct. 1, 1940; \$20.00 paid on July 1 and April 1, 1939; \$1.80 on Oct. 1, 1938; \$1.8 1938, and \$3.89 paid on July 1 and on April 1, 1938.-V. 153, p. 831.

Colonial Stores, Inc.—Sells \$2,000,000 Issue Privately The company announced Nov. 5 that it has sold privately to the Equitable Life Assurance Society of the U. S. \$2,000,000 3% % 15-year sinking fund debentures. The proceeds will be used to redeem \$1,000,000 of serial loans, for improvements and additions to physical properties and to increase working capital.

Sales-

Sales for the four-week period ended Oct. 25, 1941, aggregated \$5,016,555, compared with \$3,755,827 combined sales of the merged companies, David Pender Grocery Co. and Southern Grocery Stores, Inc., for the corresponding four weeks of 1940.—V. 154, p. 538.

outstanding at Oct. 4, 1941, or to be outstanding upon completion of exchange of old \$5 par value stock.

Notes—1. The miscellaneous income figure for 1941 includes profits 13.9.2.3.2. This resulted from the sale of stock of former subsidiary corporations engaged in artist management activities, and which after provision for Federal taxes account for approximately \$20.000 of the total profit shown for the 1941 period. Possible additional profit on the sale of such stock, amounting to \$50,000 (before Federal taxes), which is contingent upon the future earnings of Columbia Concerts Corp., has not been included in the 1941 figure.

2. Provision for Federal income and excess profits taxes for 1940, as shown above, has been calculated under the provisions of the Second Revenue Act of 1940 as amended on March 7, 1941, and the earnings originally reported for this period have been adjusted in this respect.—V. 153, p. 984.

Columbia Oil & Gasoline Corp.—To Purchase \$300,000 Of Own Debentures-

The Securities and Exchange Commission announced Oct. 29 that corporation filed a declaration (File 70-422) under the Holding Company Act regarding the proposed purchase of \$300,000 of its 20-year debentures from Columbia Gas & Electric Corp. for \$312,000 and accrued interest. The company proposes to tender the debentures as a sinking fund payment, payable Nov. 1, 1941, under the indenture securing them.

securing them.

Columbia Gas & Electric Corp. owns all of the \$20,700,000 20-year debentures of Columbia Oil & Gasoline Corp. outstanding.—V. 154, p. 148.

To add \$6,000,000 Unit-

To add \$6,000,000 Unit—
Company announced Oct. 30 that an additional turbo-generator of 50,000 kw. capacity will be installed at the Dixon plant of the Illinois Northern Utilities Co. The new unit will cost about \$6.000,000, and it is expected that it will be completed by December, 1943. This will bring the capacity at that riant to 68,500 kw.

This increases new projects which are expected to be completed this year, next, and in 1943, to six new turbo-generator units, having an aggregated rated capacity of about 435,000 kw. Charles Y. Freeman, Chairman, said that the net effective capacity of the Commonwealth Edison group is now about 2,075,000 kw. as compared with a peak load last winter of about 1,600,000.

Weekly Power Output-Last week's electricity output of the Commonwealth Edison group of companies, excluding sales to other electric utilities, was the highest on record due principally to extremely dark and rainy weather. A 13.3% increase was registered over the corresponding period of 1940. Following are the kilowatt hour output totals of the past four weeks and percentage comparisons with last year:

			-Kilowatt Ho	our Output—	
Week	End	ed—	1941	1940	Increase

Consolidated Edison Co. of New York, Inc.-Fourth High-Pressure Unit Finishes Modernization Work at

Modernization of Waterside Station, which has been under way for more than five years, was completed in September when a new 65,000-kilowatt high-pressure generating unit, the fourth high-pressure unit in that station, was put into service. With this machine in operation, total system generator capacity now stands at 2,697,000 kilowatts, providing 50% more capacity than the greatest electric demand ever recorded in system territory. Generator capacity wull be further augmented by a new 50,000-kilowatt topping turbine, now being installed at Sherman Creek Station and scheduled for operation next year.

Waterside Station now accounts for 498,000 kilowatts of system generator capacity. Installation of the four "topping" units, utilizing high-pressure steam, yields material economies in electric operation. Steam exhausted from the generators at 200 pounds pressure is used to generate electricity in the nine older units of the station. In addition, surplus exhaust steam is available for sale to the New York Steam Corp. in amounts varying from 800,000 to 1,250,000 pounds an hour. This quantity of steam is expected to supply base load requirements for the uptown district of the Steam Corporation.

Official Retires—

Official Retires-

Howard W. Leitch, Vice-President of this company, retired on Oct. 31. Mr. Leitch, who was hired by the electric company as a brushman just 46 years ago last month, is the only man now in the Consolidated Edison System who took an active part in the evolution of the electric business from the early small plants to today's unified

and interconnected organization.

Mr. Leitch was made Vice-President in charge of electrical operations in 1938, serving until December, 1940, when he passed the Bystem's retirement age. Since then he has worked as consultant on special assignments.

Weekly Output-

Company announced production of the electric plants of its system for the week ending Nov. 2, 1941, amounting to 159,400,000 kilowatt hours, compared with 155,100,000 kilowatt hours for the corresponding week of 1940, an increase of 2.8%.—V. 154, p. 861.

Consumers Gas Co. of Toronto-New Directors-

Directors have elected Herbert Horsfall and F. S. Corrigan, both of Toronto, as directors to fill vacancies on the board.—V. 152, p. 1911.

Curtis-Wright Corp.—To Vote On Pension System— Corporation has called a special stockholders meeting to be held on Nov. 26 to vote upon a proposed cooperative retirement plan for employees and officers of the corporation as well as of its subsidiary,

employees and officers of the corporation as well as of its subsidiary, Wright Aeronautical Corp.

The plan, to be carried out under contract with the Equitable Life Assurance Society of the United States, provides for payments to be made by both employer and employe and will cover all employes whose basic annual salary is \$3,000 or more and who have completed five years of service. The maximum retirement payment possible will be \$15,000 annually.

In addition to contributions for future service, the employer will provide payments of salary part of present annual basic salary in excess of \$3,000 for each year of service after Jan. 1, 1920 and prior to the effective date of the plan.

of service after Jan. 1, 1920 and prior to the effective date of the plan.

Effective Dec. 1, 1941, approximately 1,004 employes will be eligible to participate in the plan, of whom 24 are officers, including five officers who are also directors.

The corporation's payment for past service annuities for all officers and employes eligible is estimated to amount to \$400,180 for each of the years 1941, 1942 and 1943, totaling \$1,200,540. Its annual payment for future service annuities, based on the present number of employes, their ages and rates of pay, would amount to \$96,360, and the annual payment by employes would be \$64,920.

The letter to stockholders states that the three highest rates of retirement income, on the basis of present employment and salary, would be paid as follows: \$15,000 to G. W. Vaughan, President; \$11,850 to M. B. Gordon, Vice President; and \$12,650 to Burdette S. Wright, Vice President.

The corporation's payment for past service annuities will be \$106,-631 in the case of Mr. Vaughan, \$27,144 for Mr. Gordon, and \$28,291 for Mr. Wright. The estimated monthly payment by the corporation for future service annuities will be \$607.50 for Mr. Vaughan, \$187.83 for Mr. Gordon, and \$179.82 for Mr. Wright. The aggregate amounts of remuneration paid by Curtiss-Wright and subsidiaries in the last fiscal year were \$153,619.59 to Mr. Vaughan, \$60,516.89 to Mr. Gordon, and \$75,368.75 to Mr. Wright, including amounts paid them under the incentive compensation plan.—V. 154, p. 653.

Derby Gas & Electric Corp. (Del.)-Corporate Simplification Plan Operative-Exchange of Stock-Sells \$2,750,000 3% Debentures—

\$2,750,000 3% Debentures—

The plan for corporate simplification of the corporation dated as of Sept. 10, 1940, as amended, which was approved by order of the SEC entered under date of Sept. 4, 1941, was approved by a vote of the holders of a majority of the publicly held preferred stock of the corporation and of Ogden Corp. at a special meeting held on Oct. 8, 1941. Pursuant to the vote of the stockholders a certificate of amendment was filed Oct. 21 in the office of the Secretary of State of Delaware reclassifying each share of \$7 dividend preferred stock and \$6½ dividend preferred stock (other than the 631½ shares of \$7 dividend preferred stock surrendered for cancellation by Ogden Corp.) into three shares of new common stock.

In order to receive certificates representing the shares of new common stock, stockholders should send certificates for \$7 dividend preferred stock and \$6½ dividend preferred stock to Manufacturers Trust Co., Exchange Agent, 45 Beaver St., New York, N. Y.

\$2,750,000 Debentures Sold Privately—In connection with the corporate simplification plan the company has sold privately to the Equitable Assurance Society of the

sold privately to the Equitable Assurance Society of the U. S. an issue of \$2,750,000 collateral trust debentures, 3% series due 1949.

3% series due 1949.

The debentures are dated Oct. 1, 1941 and mature Oct. 1, 1949. The Manufacturers Trust Co., New York is trustee, paying agent and registrar. Total authorized \$3,500,000.

The plan for corporate simplification provides for a new capital structure consisting of collateral trust debentures, 3% series due 1949, in the principal amount of \$2,750,000, and 146,606 shares of common stock (no par). of these shares 84,000 are issuable to Ogden Corp. in consideration of the cancellation by that corporation of \$2,250,000 of the \$5,000,000

open account indebtedness formerly owing to that corporation, the cancellation of old common stock formerly held by Ogden Corp. and the assumption by Ogden Corp. of the expenses of reorganization of Derby Gas & Electric Corp. accrued since Dec. 1, 1939.

Of the remaining shares of common. 55,029 shares are issuable to the public holders of the old preferred on the basis of three shares of new common for each share of old preferred stock and 7,577 shares of new common are issuable to Ogden Corp. in respect of the 3,157 shares of old preferred stock formerly held by Ogden Corp.—V. 154, p. 862.

Dewey & Almy Chemical Co. (& Subs.) - Earnings-

9 Mos. End. Sept. 30—	1941	1940
Gross sales	\$5,588,073	\$4,130,401
*Net profit	631,664	422,603
Shares of common stock outstanding	226,117 \$2,46	216,475 \$1.59
parnings per share	02.40	94.00

*After deduction of allowances for Federal, state and foreign taxes of \$502,800 in 1941 and \$259,500 in 1940.

The balance sheet as of Sept. 30, 1941, lists current assets of \$3,344,694 and current liabilities of \$1,481,340; constituting increases of \$577,958 in current assets and \$362,070 in current liabilities, compared with the figures on Dec. 31, 1940.

Conversion of Preferred Stock-

More than half the original 22,494 shares of the company's preferred stock has now been converted into common stock, the current report states. Since 18,137 shares of the preferred were reported outstanding on Sept. 30, 1941, it is apparent that a large number of conversions have been made in recent weeks.

The interim report observes that preferred stockholders who convert prior to Dec. 2, 1941 will obtain dividends amounting to \$2.20 per share of preferred stock converted in lieu of the regular dividend of \$1.25 per share. Each share of preferred is convertible into four shares of common up to the close of 1941, when the ratio drops to three shares of common.

A dividend of 55 cents per share has just been declared on the common, payable Dec. 15, 1941 to holders of record Dec. 1, 1941, bringing total common dividends to \$1.50 per share for the year.—V. 153, p. 546.

Distilled Liquors Corp.—Changes Name—

Stockholders at their last annual meeting, authorized change of the corporate name of Hildick Products Corp.

The company has conducted a distilling and rectifying business at its Flemington, N. J. and Lyons, N. Y. plants. During the past year all company operations have been consolidated at Lyons, N. Y. Conspany has two wholly-oweed subsidiaries. Distilled, Liquors Import Co., Inc., and Walter H. Hildick Co., Inc. Through the former it conducts a general import business in distilled liquors and wines. Through the latter it has expanded its cider and vinegar operations and entered the juice field through the construction of a modern plant, in which a natural Apple Juice is being produced. An exclusive process is employed whereby the product is kept from oxidizing, and when packed is a combination of the juice and pulp of a freshly crushed apple. All the natural properties of the apple are found in the juice. All these properties are protected by this process as they are protected by the skin of the apple. The secret of retaining these qualities is the use of the whole apple, a quick process of manufacture, use of a vacuum and a centrifuge instead of the old-fashioned pressing operation.

Hildick Products Corp. will continue to distill and market its brandies. Its present aged stock meets the demand of brandy drinkers in America for a quality brandy.

Future plans embrace the fruit and vegetable juice field, and the management considered the change of name desirable as being more descriptive of its general business.—V. 154, p. 748.

*And after provision for Federal excess profits tax.

Hugh Moore, President, states the increased volume has permitted
the company to absorb substantial increases in the cost of labor and
materials with only 6% average increase in our own selling prices
this year. This is in line with our policy of holding down selling
prices to make our products available to the expanding consumer
demand.

demand.

Up to now we have been able to procure our enlarged needs in materials. Although no one can predict the effect of priorities. Dixie-Vortex Co. is fortunate in that its base material is paper rather than metal. The paper mills supplying us consider our business promising for the future and are putting forth their best efforts to meet our needs.—V. 153, p. 1128.

Domestic Finance Corp.—Earnings for Six Months Highest in History for Any Similar Period—

Net earnings of the corporation, for first 6 months of its fiscal year ended Sept. 30, 1941, set a new high record for any comparable period in its history. Earnings were \$482,321 after all taxes and reserves, an increase of 7½% over the same period last year, according to the corporation's semi-annual report. Net earnings for the 6 months were equivalent to \$1.04 per share on 310,000 shares outstanding, compared to 98 cents in the same period last year. Outstanding loan balances increased \$974,625 during the six months' period, and now stand at \$12,279,463. Current assets increased \$1,405,033, from \$6,927,296 to \$8,332,329. Net worth gained \$1,717,679, from \$5,861,491 to \$7,579,170.

(E. I.) du Pont de Nemours & Co.-Prices Reduced-

Price reductions ranging up to 50% will be put into effect this month on the new industrial chemicals, sulfamic acid and ammonium sulfamate, company announced Nov. 3. Both chemicals, which three years were costly laboratory curiosities produced on a pilot plant scale, have proved themselves to be valuable in many industrial processes and are now in tonnage production at du Pont's recently completed plant in Grasselli. N. J.

are now in tonnage production at du Pont's recently completed plant in Grasselli, N. J.

Ammonium sulfamate has been adopted widely as a fire retardant in textiles, insulation products and paper. While flammable material treated with this chemical will char upon contact with flame, it will not blaze nor support fire. Sulfamatic acid has been found to be valuable in leather tanning, for nitrate removal in the manufacture of dyes and color lakes and also as a laboratory reagent.—V. 154, p. 749.

Erie RR.-Acquisition of Roads Approved-Bond Issue Authorized-

Erie RR.—Acquisition of Roads Approved—Bond Issue Authorized—

The ICC on Oct. 27 authorized the sale to and purchase by the trustees of the road of the properties of the Nypano RR. and of the Cleveland & Mahoning Valley Ry.

Authority was also granted to trustees of the Erie RR. to issue not exceeding \$18,000,000 of Ohio division first-mortgage 3½% bonds, due Sept. 1, 1971, to be sold at 101.0959 and interest and the proceeds used to redeem (a) \$8,000,000 New York, Pennsylvania & Ohio RR. extended 4½%, prior-lien bonds, due March 1, 1950, (b) \$2,816,000 Cleveland & Mahoning Valley Rv. first-mortgage 4% bonds, due July 1, 1962, (c) \$6,700,000 of Erie RR.-Cleveland & Mahoning Valley Ry. collateral-trust, 1939, 4% certificates, and (d) \$541,000 of Rayen Terminals Co. first-mortgage serial 4% bonds.

The ICC on Oct. 27 also issued a certificate authorizing the acquisition by the Nypano RR. of a line of railroad known as the Westerman Coal & Iron RR., extending from M'll St., Sharon, to a point about 0.5 mile west of the Pennsylvania-Ohio State line, approximately 2.09 miles, in Mercer County, Pa., and Trumbull, County, O.

The property proposed to be acquired is owned by the Erie Land & Improvement Co. of Pa. It is operated as a part of the main line of the Erie RR. between Meadville, Pa., and Youngstown, O., the northerly end connecting with the Sharon Rv. at Mill St. and on the south with the railroad of the Cleveland & Mahoning Valley Ry.

The Erie Land & Improvement Co. of Pa., which is a wholly-owned non-carrier subsidiary corporation of the Erie, was formed for the purpose of purchasing, holding, and leasing real estate. The properties of the Sharon Ry., the Cleveland & Mahoning Valley, and those known as the Westerman Coal & Iron RR. are operated as units of the Erie system under lease to the Nypano, which in turn has sublet to the Erie. The proposal herein contemplates that title to the Westerman Coal & Iron RR. are operated as units of the Erie will convey title to the Erie trustees.

—V. 154, p. 862.

The Fair-New Official-

Hector Suyker has been elected Pirst Vice President as of Oct. 30. This fills the vacancy caused by the resignation of C. S. Maginnis in September, 1940.—V. 154, p. 150.

Fairbanks, Morse & Co.—Bonds Called—

A total of \$200,000 20-year 4% s. f. debentures due June 1, 1956 has been called for redemption on Dec. 1 at 103 and accrued interest. Payment will be made at the First National Bank of Chicago, and at the Chemical Bank & Trust Co., N. Y. City.—V. 154, p. 862.

Federal Water Service Corp.—Stock Suspended from Dealings-

The class A stock (no par) was suspended from dealings on the New York Stock Exchange at the opening of the trading session Nov. 1.

Nov. 1.

Federal Water Service Corp. notified the Exchange that the plan for readjustment and simplification of the corporation's capital structure, in connection with a merger between Federal Water Service Corp., Utility Operators Co. and Federal Water and Gas Corp., was approved by the stockholders on Oct. 28, and that it will not be prepared to transfer the company's presently listed certificates after Oct. 31.

Stockholders of Federal Water Service Corp. and Utility Operators Co. will be requested to exchange their stock for that of the Federal Water and Gas Corp.

The successor corporation has not applied for the listing of its new stock.

The plan for the readjustment and simplification of the capital

new stock.

The pian for the readjustment and simplification of the capital structure was consummated Oct. 31. Federal Water Service Corp., accordingly, has assumed its new name. Federal Water & Gas Corp. Holders of certificates of both class A and preferred stock of Federal Water Service Corp. are requested to forward by registered mail or deliver their certificates to New York Trust Co., 100 Broadway, New York, N. Y., for the attention of the stock transfer department in order to receive certificates for common stock in accordance with the recreate agreement.

with the merger agreement.

It is believed that earnings of the corporation subsequent to the merger will be sufficient to permit declaration of a dividend as of the end of the year.—V. 154, p. 862.

Hartford Electric Light Co .- FPC Orders Accounting-

The company on Nov. 4 was given 90 days by the Pederal Power Commission within which to comply with orders requiring the filing of certain cost information on the company's plant facilities under the

uniform system of accounts.

The company contended that it was not engaged in interstate commerce in the sale and distribution of electric energy, and therefore was not subject to jurisdiction of the Power Commission. The FPC ruled otherwise.

was not subject to jurisdiction of the Power Commission. The FPC ruled otherwise.

The company's contention that it was not engaged in interstate commerce was based on the fact that the energy it generates passes through transformers and over transmission lines owned by its affiliate. Connecticut Power Co., before leaving the State of Connecticut. In rejecting this contention the opinion states:

"The summary of facts found in our previous opinion discloses that Hartford is a Connecticut corporation engaged in the business of generating, transmitting, distributing and selling electric energy; that there is a community of interest between Hartford and Connecticut Power Co.; that prior to enactment of Part II of the Federal Power Act of 1935, Hartford, as a member of the Connect cut Valley Power Exchange, furnished and sold at wholesale in interstate commerce large quantities of electric energy. In the argument at the rehearing, counsel for Hartford admitted that at this stage Hartford ws engaged in Interstate commerce within the meaning of said Act.

"In 1938 Hartford withdraw from the exchange, merely transferring to Connecticut Power Co. certain of its facilities, from the bushings on the wall of its generating plant to and including its substation, and entering into a contract with Connecticut Power Co. whereby Hartford disposed of its electric energy as before, except that by said contract it sold energy to Connecticut Power Co., which in turn resold it to the exchange."

exchange."
At the rehearing the company conceded that energy generated by it is transmitted in the same manner, in so far as physical aspects are concerned, as if Hartford were still a member of the exchange.

"The mere fact that outward-bound energy passes onto the lines of another company within Connecticut," the opinion says, "does not rob the entire transaction of its interstate character; this is self-evident in the case of some of the electric energy here involved which crosses the Massachusetts State line almost instantaneously after it leaves Hartford."—V. 154, p. 907.

Less reserve for depreciation. *Less reserve. Richard N. Greenwood, President, states:

Working capital requirements in support of higher inventories and receivables have necessitated additional bank accommodation and notes payable, which amounted to \$400,000 at Sept. 30, have since been increased to \$500,000.

Because of the dominating influence which the national defense program is exerting on all industry, and the application of priorities, the company is meeting increasing difficulty in securing raw materials for the metal-working classification of its business excepting in cases where preference ratings are obtainable for defense production. As yet, however, the wood-working and rattan classifications are not seriously handicapped and volume in those divisions of the business is entirely favorable.—V. 153, p. 990.

Substantially all mortgaged to Reconstruction Finance Corporation—less reserves for depreciation. Reconciliation of fixed assets follows: Fixed assets as at Nov. 2, 1940, \$2,580,746; adjustments applicable to prior years, \$6,808; book value of non-operating fixed assets disposed of, \$680,443; fixed assets as at Sept. 30, 1941, \$1,893,494.

Report of Operations - John E. Murphy, Trustee

(1) Improvement in Earnings—As of the date of appointment (Nov. 2, 1940) Hupp was operating at a loss due to various factors. Since Nov. 2, 1940, company has earned a net profit from current operations of \$150,183. In the opinion of the trustee, there will be no Federal income taxes payable for the year 1941.

(2) Reduction of RFC Mortgage by \$204,593—With the approval of the court and the RFC, the trustee has liquidated two parcels of real estate which were unnecessary to the operation of the plant, and some personal property, at the total sales price of \$204,593. These items were carried on the company's books at a total valuation of \$687,251, causing a book loss on these sales of \$482,658. The selling prices on the basis of today's actual values, however, were satisfactory to the trustee, the debtor corporation and all other interested parties who appeared, and to the court. The money thus realized was applied on the RFC mortgage.

(3) Elimination of Past Due Taxes—Out of earnings, all past due to the court of the current taxes event current taxes which will not be

(3) Elimination of Past Due Taxes—Out of earnings, all past due taxes and all current taxes, except current taxes which will not be due until December, have been paid in the total amount of \$156,105.

(4) Improvement in Cash Position—On Nov. 2, 1940, cash on hand amounted to \$2,627. Two payrolls were past due. On Sept. 30, 1941, all payrolls had been paid and cash on hand amounted to \$211,301.

Proposed Leases for Consideration of Creditors and Stockholders Proposed Leases for Consideration of Creditors and Stockholders. The principal physical assets of this estate consist of multiple floor factory buildings having a total floor area of 1,115,485 square eet. Of this area, 187,000 square feet are now being used for manufacturing operations, office space and other related activities while 790,772 square feet are rented under short term rental agreements to various tenants at a rental of 35 cents per square foot per year which, the trustee believes is the best rental obtainable for this type of space in the Detroit area under present conditions and is from 10 cnts to 15 cents per square foot more than was being realized at the date of his appointment. He has now obtained from two of the present tenants written offers to lease part of this space at rentals and for terms of years as follows:

Tenant U. S. Rubber Co. Chrysler Corp	Area to Be Leased 400,000 sq. ft. 215,500 sq. ft.	Rate per Square Foot per Annum 35 cents 35 cents	Proposed Term of Lease 3 years 2 years	Gross Rental for Proposed Term \$420,000 150,850	
Total gross ren	ital	Though The Time		\$570.950	

terms of years as follows:

execution of these leases will provide a fixed source of sub-al income. There is also a possibility that on the security of

such leases a bank loan may be obtained at a rate of interest substantially below the 5% per annum required by the RFC mortgage. If, with the approval of the court, such a loan is obtained, the effect would be to free the plant properties from the RFC's first mortgage lien. If the proposed leases are executed and the present earnings of the company are maintained, the termination of the reorganization proceedings will be accelerated and the necessity for a formal reorganization may be eliminated.

A hearing will be held before the Hon. Frank A. Picard, the District Judge in charge of these proceedings, on Nov. 18 when the proposals for leasing and refinancing, together with the petitions for allowance of compensation, will be acted upon.—V. 152, p. 121.

Illinois Bell Telephone Co.-Plans to Offer Stockhold-

Company is expected to apply shortly to the Illinois Commerce Com

Company is expected to apply shortly to the Illinois Commerce Commission for permission to increase its authorized stock from 1,500,000 shares to 2,000,000 shares (par \$100. Of the increased capitalization of 500,000 shares, the company intends to offer 125,000 shares to present stockholders on Jan. 9, 1942.

A special meeting of stockholders will be held on Nov. 5 next to vote on a proposal to amend the articles of incorporation to provide for the increase in the authorized shares. American Telephone & Telegraph Co. holds more than 99% of Illinois Bell stock and since the right to purchase the additional shares at \$100 each will be pro rata to the present holdings it is expected that A. T. & T. will handle most of the new investment.

Proceeds of the new issue will be applied to expenditures for plant additions and new construction in the Chicago area. The proposed increase will represent the first increase in capitalization of Illinois Bell since September, 1928, when its shares were increased from 1,110,000 to the present 1,500,000.—V. 154, p. 582.

Illinois Commercial Telephone Co.—Files Amendment The company has filed with the SEC an amendment to its registration statement covering the issuance of \$5,750,000 of 3% first mortgage bonds, due 1971, saying that price of the new bonds has not yet been decided. In the original registration statement the price of the new bonds was set at 106.50. Bonbright & Co., Inc., Paine, Webber & Co., and Mitchum, Tully & Co. will be underwriters for these bonds and 24,000 shares of \$5 preferred stock.—V. 154, p. 865.

Illinois Consolidated Telephone Co.-Bonds Called-A total of \$60,000 first mortgage 4½% bonds, series A due Jan. 1, 1966, has been called for redemption on Jan. 1 at par and accrued interest. Payment will be made at Harris Trust & Savings Bank, Chicago, Ill., or at the Bankers Trust Co., N. Y. City.—V. 151, p. 2943.

International Silver Co.-\$4 Common Dividend-

Directors have declared a dividend of \$4 per share on the common stock, payable Dec. 1 to holders of record Nov. 18. This compares with \$1 paid on Sept. 1 and on July 18, last, this latter being the first dividend paid since Dec. 1, 1930, when \$1 per share was also distributed.—V. 154, p. 152.

International Utilities Corp. — SEC Would Liquidate Corporation-

Liquidation of the corporation because it serves "no useful function" and merely complicates the holding company system of which it is the head has been proposed by counsel for the SEC.

This position was taken by F. Donald Daum, counsel for SEC's Public Utilities Division at hearings with respect to what steps International should take to simplify its corporate set-up and bring about an equitable distribution of voting power among its security-holders.

about an equitable distribution of voting power among its security-holders.

"It is the position of the staff of the Public Utilities Division that section 11-B-2 (of the Holding Company Act) will not permit the continued existence of International Utilities Corp.," said Mr. Daum. "At present International serves no useful function. It exists only as a complicating factor in the corporate structure of the holding company system."

Eugene L. Carey, counsel for International, objected to Mr. Daum's statement, and the presiding examiner granted a motion that it be stricken from the record.

Mr. Daum said that unless the company made a satisfactory showing that liquidation was not necessary, the Division at conclusion of the hearings would ask SEC to enter a formal order requiring dissolution. As to complications in the International structure, Mr. Daum said the corporation has outstanding three classes of preferred stock, two of which have substantial dividend arrearages. The corporation's common stock has little or no equity in either earnings or the assets of the company, Mr. Daum said, adding that at present the common stockholders have about 89% of the total voting power.

Despite objections of the SEC attorney, the examiner allowed Mr. Carey to submit as evidence various exhibits bearing on the value of International's assets. The SEC attorney contended that the value of the property had no bearing on the question whether the enterprise should be liquidated.—V. 154, p. 865.

(F. L.) Jacobs Co.—Expansion Program—

Expansion program of this company during the past five years has resulted in the acquisition of four concerns, three identified with the automotive industry and one with the aircraft industry. In this period, company has taken over, as divisions and subsidiaries, the Grand Rapids Metaldraft Corp., Grand Rapids; the Parts Manufacturing Co., Traverse City; the Air-Track Manufacturing Corp., College Park, Md.; and the Anderson Manufacturing Corp., these with the exception of the Air-Track Manufacturing Corp., these units have been engaged principally in the manufacture of automobile parts, serving all of the major automobile manufacturers in the country.

In the main plant at Detroit, and in the subsidiary units at Grand.

country.

In the main plant at Detroit, and in the subsidiary units at Grand Rapids and Traverse City, the company is producing gun mounts, ammunition racks, bundle accessories, fuses and shells. It also is machining numerous aluminum castings for airpiane production.

The Maryland plant of Air-Track Manufacturing Corp. is devoting its entire facilities to the filling of government orders, manufacturing instrument landing equipment and all types of aircraft radio equipment.

ment.

Employment in the five plants of the Jacobs company currently approximates 1,850 men.

The company has added an additional plant in Detroit in which it plans to be in production within 60 days, manufacturing large assemblies for medium type tanks. This plant will employ approximately 400 men.—V. 152, p. 988.

Marion-Reserve Power Co.-Stock Increased-

Company informs us that at a meeting of the stockholders held on Sept. 13, 1941, they approved the proposal to increase the authorized number of common shares from 50,000 to 500,000 and to change the par value thereof from \$20 to \$5. The immediate result of this change has been to increase the number of outstanding common shares from 33,000 to 330,000 shares. At the same time the company's stockholders approved an increase in the voting power of the \$5 preferred shares so that each such share is not preferred shares so that each such share is not preferred shares so that each such share is not preferred shares so that each such share is not preferred shares so that each such share is not preferred shares so that each such share is not preferred shares. \$5 preferred shares so that each such share is now

ten votes.

These changes became effective upon the filing of a certificate of adoption of the articles of the company with the Secretary of State on Sept. 20.—V. 154, p. 867.

Marmon-Herrington Co., Inc., Indianapolis-Registers

Company has filed with the Securities and Exchange Commission a registration statement for 150,000 shares of common stock (\$1 par). These shares are already issued and outstanding, and are to be offered to the public for the account of three stockholders.

The shares have been underwritten by Brown, Schlessman, Owen & Co., Denver, who have agreed to buy the 150,000 shares from the stockholders at \$8 a share. The price to the public will be \$10 a share. The underwriter, it is stated, may form an underwriting group for the public distribution of such shares. The net proceeds from sale of the stock will accrue to the selling stockholders.

The company, which is an outgrowth of the truck department of the former Marmon Motor Car Co., is engaged in the manufacture, assembly and sale of heavy-duty All-Wheel-Drive-trucks, special Marmon-Herrington All-Wheel-Drive Ford trucks, Ford conversion units, track-laying tractors, military combat vehicles and other special military equipment. A wholly owned subsidiary, the Merz Engineering Co., is engaged in designing, engineering and manufacturing precision gauges, tools, special machine tools, dies, Jigs, fixtures and in precision production machining.

duction maching.

In the first eight months of 1941, company reported net sales of \$4,702.547, of which \$3,770,268 represented sales for military uses and \$932,279 sales for commercial uses. Company had a total of \$23,712,127 of unfilled orders on Oct. 20, a large portion of which were for track-laying military combat vehicles of various types, the production of which is just getting under way.

Montreal Tramways Co.-Urged to Take no Action-

Montreal trainways Co.—Orged to Take no Action—
The protective committee for the first and refunding mortgage 5s, of the issue urges them to await further advices and prexy forms of the committee before taking any action with respect to the scheme of arrangement formally announced by the company. The letter states that since the first meeting of bondholders will not take place until Dec. 9 "there would appear to be no need for bondholders to act hastily and the committee advices them to await further developments before taking any action with respect to their bonds."—V. 154, pp. 752.

Morse Twist Drill & Machine Co .- \$2.50 Dividend-

Directors have declared a dividend of \$2.50 per share on the common stock, payable Nov. 15 to holders of record Oct. 30. Like amount was paid on Aug. 15, last; dividends of \$1.50 were paid in the two preceding quarters; extra of \$5 was paid on Dec. 20, 1940; dividend of \$2.50 was paid on Nov. 15, 1940; and previously regular quarterly dividends of \$1.50 per share were distributed.—V. 153, p. 843.

Mullins Mfg. Co.-Accumulated Dividend-

Directors have declared a dividend of \$3 per share on account of accumulative preferred stock, payable Dec. 1 to holders of record Nov. 14. Dividend of \$2.50 was paid on Sept. 2, last; \$1.75 was paid on June 2, last; \$1 paid on March 20, last; \$3.43 paid on Dec. 24, 1940, and previous payment was the quarterly dividend of \$1.75 per share distributed on March 1, 1938.—V. 154, p. 659.

National Broadcasting Co.—Files Suit Against FCC—

Will Open New Studios In Anniversary Celebration-Marking the 15 anniversary of its radio service to America's listening mill ons, the company will part the curtains in its new Copper and Silver studios at Radio City with an impressive dedicatory program on

Announcement of the formal opening of the new studios, located on the sixth and seventh floors of the RCA Building, was made by Niles Trammell, NBC president.—V. 153, p. 995.

National Public Service Corp.—Sale Postponed—

New York Trust Co., trustee for the company's debenture, has postponed from Oct. 28 to Dec. 16 the sale at public auction of a single block of 712,411 shares of Jersey Central Power & Light Co. common stock, collateral supporting the debentures. The stock was originally scheduled to be auctioned on Sept. 10, 1936, but the sale has been postponed from time to time.—V. 154, p. 180.

Note—(1) For the 9 months ended Sept. 30, 1941, Federal income taxes (normal) have been accrued at the rates effective under the Revenue Act of 1941. No provision has been made for 1941 Federal excess profits tax as the liability, if any, for such tax will not be determined until the close of the fiscal year.

Note—(2) Parent company and other non-utility expenses are consolidated in operating expenses above for both periods instead of being netted against other income as formerly.

The sole purpose of this statement is to give present security holders information about this Association and its subsidiary companies and is not a representation, prospectus or circular in respect to any security of this Association or ôf its subsidiary companies.

Notes—1. No provision has been considered necessary for excess profits tax, under the Excess Profits Tax Act of 1940, for the periods covered by this statement. The company has joined with others in a consolidated return for the year 1940 which indicated no tax liability, and will similarly join in a consolidated return for the year 1941. It is estimated that the 1941 consolidated return will show no tax liability. 2. Provision for Federal income and declared value excess profits tax includes \$56.080 in the current period representing provision for prior years tax not previously recorded. 3. Dividends on the company's preferred stock amounted to \$198,360 for the current period and previous period. 4. The above figures, in so far as they relate to the calender, year 1941 are preliminary, being subject to verification by the auditors. Certain previously published figures have been reclassified herein for comparative purposes.—V. 153, p. 995.

Niles-Bement-Pond Co.—Stock Split-Up Voted-

Stockholders at a special meeting held Nov. 3 approved a proposal to split the stock of the company on a four-for-one basis, increasing the authorized number of shares from 200,000 to 800,000. The number of shares outstanding after this distribution will be 712,100.

C. R. Burt, President, said at the meeting that the company had entered into an agreement whereby the government would spend \$405,000 for new equipment to be used in the production of a certain type of meeting tool. The facilities will be owned by the government and leased to the Company and the same company to the same tool.

Nonquitt Mills-\$1.25 Dividend-

Directors have declared a dividend of \$1.25 per share on the common stock, payable Nov. 14 to holders of record Oct. 28. Like amount was paid on Aug. 14, last; dividend of \$1 was paid on May 14, last; 75c. was paid on March 4, last, and previously regular quarterly dividends of 50c. per share were distributed.—V. 153, p. 844.

Net income

E. L. Shea, President, States in Part:—

The electric output of consolidated subsidiaries in the third quarter was 25% more than in the corresponding period of last year. Their total revenues, of which more than three-fourths come from electric operations, increased 16½%, while operating expenses and maintenance increased 19%. Water conditions in the Missouri area were more favorable for hydro-electric generation of power during the latter part of the third quarter and so far in the fourth quarter. Total provisions for all taxes for the third quarter were \$7,002 693, an increase of \$1,501,878 compared with the corresponding period last year. The provisions for the 12 months increased \$5,263,170 to a total of \$27,996,463, representing 20% of total revenues. These taxes were equivalent to \$3.27 per share of North American common stock, against \$2.45 per share a year ago.

Most of the increase in total tax provisions was due to higher rates of income and excess profits taxes. These taxes for the third quarter were up \$1.236.094, or 62%, to a total of \$3.225,015; for the 12 months they were up \$4,359,983, or 54%, to a total of \$12,458,923.

National Defense

National Defense

During the third quarter an increasing proportion of the electric output of North American subsidiaries was for national defence production. Their sales of power to industrial customers were more than 33% greater than in the third quarter of last year, and the number of these large power users increased nearly 12%.

Longer hours of operation by industries already producing defense materials, together with expanding activity on new contracts awarded in the various areas, have so far more than offset some reduction

in power consumption due to curtailment of non-defense production. As an example of accelerated industrial activity, one of our companies recently reported that out of a group of 392 larger power users, 170 have triple shifts working 24 hours a day and 73 have double shifts working 16 hours a day. The result is that nearly three-fourths of the daytime electric load of this whole group of customers continues up to midnight and two-thirds continues through the night.

Our subsidiaries' electric sales to commercial customers increased 12%, authough the number of these customers decreased slightly, compared with the third quarter of last year. Sales to residential customers were nearly 9% greater, and at the end of the quarter our companies were serving 31,000 more home consumers than a year ago, an increase of 3%.

The facilities of the electric utilities in the North American System have met the rapidly increasing demands for service. While it has been impossible to forecast accurately the great industrial expansion that is taking place, the system's construction programs have been geared to an increase in the capacity of their facilities adequate to meet the growing requirements now indicated, if deliveries and installations are made according to schedule.

An additional 60,000 kilowatt generator was recently completed ahead of schedule in Cleveland. A new 35,000 kilowatt unit will soon be on the line in Milwaukee. Two more units, each of 40,000 kilowatts capacity, are nearing completion in the St. Louis area, one to be ready about the end of the year and the other in February. Another 50,000 kilowatt addition in Washington to be finished in March is similar to one placed in operation a year ago.

Besides these, other additions called for under the North American System's present construction program comprise 110,000 kilowatts in the Cleveland area, 95,000 kilowatts in the Milwaukee area, 160,000 kilowatts in the St. Louis area, and 100,000 kilowatt unit ordered in recent months.

Integration

Integration

Following the conclusion of the integration hearings, the SEC has been considering the case, looking towards a determination of the status of The North American Co. under the Holding Company Act.

Our conversations with the Commission have continued for the purpose of seeking a settlement of one of our problems, the proposed dissolution of North American Light & Power Co., an intermediate holding company subsidiary. The adjourned special meeting of stockholders of North American Light & Power Co. to act upon the proposal for dissolution has been postponed to Nov. 21. Meanwhile, a stockholder of North American Light & Power Co. has brought a suit in the Federal Court in New York in an attempt to get the position of The North American Co. with respect to its holdings of senior securities of North American Co. with respect to its holdings of senior securities of North American Light & Power Co. adjudicated in that court. The plaintiff in that suit seeks to require The North American Co. to turn in to North American Light & Power Co., at cost, the debentures and preferred stock of that company purchased by The North American Co.

We nave also had conversions with the Commission on other and broader phases of our situation under the Act. We are attempting to work out a program which will meet the requirements of the Act and best serve the interests of our stockholders.—V. 154, p. 56.

Ohio Iron Co., Youngstown, O.-To Sell Stock-

Negotiations are in progress for the sale of the 18,797 shares of outstanding capital stock of the company, A. E. Adams, Jr., president, announced Nov. 1. He disclosed that an offer had been received for the stock at \$32.15 a share, a total of \$604,333. Wadsworth & Co. are handling the negotiations in behalf of an undisclosed purchaser. The offer, Mr. Adams said, is contingent upon delivery of 95% of the stock by Nov. 10. Ohio Iron is a holding company.

Omnibus Corp.—Referee Named—

Supreme Court Justice Julius Miller on Nov. 3 appointed Samuel Seabury as referee to conduct an inquiry into the adequacy and reasonableness of an offer made by the Omnibus Corp. to minority stockholders of the Pifth Avenue Coach Co. in settlement of claims made in two court actions. The offer was made for complete settlement of a stockholders' action by May L. Bl'as and other holders of the New York Transportation Co., now dissolved, which up to 1936 owned all common stock of the Fifth Avenue Coach Co., and in partial settlement of a suit by Harry Kahn and four other stockholders of the Fifth Avenue company.

of a suit by Harry Kahn and four other stockholders of the Fifth Avenue company.

The plaintiffs in both suits charged that the Fifth Avenue Coach Co. sold certain bonds and other claims to the Omnibus Corp. for an inadequate consideration. The Omnibus Corp. now owns 92% of the common stock of the Fifth Avenue Coach Co.

While denying the validity of this charge, the Omnibus Corp. in the proposed settlement offered the minority stockholders of Fifth Avenue Coach either the right to purchase an equal number of shares of the New York City Omnibus Corp. at \$24.35 a share, or the right to exchange each share of Fifth Avenue Coach stock for one share of New York City Omnibus Corp. plus one-half share of Omnibus Corp.

The proposed settlement would not affect other causes of action in the Kahn suit, charging exorbitant payments by Fifth Avenue Coach Co. to individual defendants or to companies with which certain defendants were associated.—V. 154. p. 154.

Otter Tail Power Co.-Acquisition-

The company, operating in Minnesota, North Dakota and South akota, has been authorized by the Federal Power Commission to acquire Twin Valley and Wheaton electric facilities of Minnesota

acquire Twin Valley and Wheaton electric facilities of Minnesota Utilities Co., for \$520,000 cash "plus adjustments for current items." The company also was given permission to issue \$200,000 of first mortgage bonds, 3% series 1971, and to borrow \$850,000 from the bank. It is understood that the bonds will be sold to John Hancock Mutual Life Insurance Co. at par and int. The sale is to be made Nov. 25. The \$850,000 is to be borrowed from First National Bank & Trust Co., Minneapolis, at 1½% and is for one year.—V. 154, p. 660.

Pacific Gas & Electric Co.-Prefererd Stock Offered Offering was made Nov. 6 of 175,000 shares of 5% cumulative first preferred stock (par \$25) by Blyth & Co., Inc. The offering price is \$27 a share, plus dividend from the date of issuance. The block is part of an issue of 400,000 shares previously authorized, and of which the company has agreed to dispose of not more than 225,000 shares in its own over-the-counter marketing. The bankers announce that the issue has been oversubscribed.

The company will apply the proceeds of this financing to the redemption of its first and refunding mortgage 6% bonds, Series B, due on Dec. 1, which remain outstanding. These bonds were originally issued in the amount of \$20,000,000.

According to the offering prospectus, net earnings of the company pplicable to dividends on all of the company's first preferred stock be outstanding amounted to \$11,549,944 in the first half of this

year. This compares with the annual dividend requirements on the stock of \$8,409,821.—V. 154, p. 754.

Perkins Machine & Gear Co., West Springfield, Mass.

Company (now having accumulations of \$19.25 a share on its preferred stock) proposes to wipe out these accumulations and in that connection plans to issue 2,500 additional shares of common stock. The accumulation will be removed as of Dec. 1, 1941, when a dividend of \$1.75 a share on outstanding preferred will be paid to stockholders of record Nov. 19. Notice is also given of intentiton to pay a dividend of 75 cents a share on the common before the end of the fiscal year. Stockholders have been notified of a special meeting to be held Nov. 12 to act on recommendations of the directors. President John Oakley, in a communication to stockholders, explains that it is proposed to eliminate present accumulations of \$19.25 a share on the preferred (5,000 shares), after the \$1.75 dividend already declared, by payment of \$4.25 in cash and \$15 in cash or in common stock, in which connection it is proposed to issue 2,500 new shares (no par) common, making the total outstanding then 17,500.

During 1940 the company earned \$29.52 a share on the preferred and \$7.51 a share on the common. Earnings on the common in 1939 were equal to 18 cents a share.

Public Service Co. of Colorado-Bonds Called-

A total of \$400,000 4% s.f. debentures due Dec. 1, 1949 has been called for redemption on Dec. 1 at 102% and accrued interest. Payment will be made at the Irving Trust Co., New York City.—V. 152, p. 2872.

Public Service Co. of Indiana, Inc.-To Issue \$42,000,-000 Bonds and \$10,000,000 Serial Notes Mostly for Refunding-

Company on Nov. 2 filed a petition with the Public Service Commission of Indiana for authority to issue and sell \$42,000,000 33%% first mortgage bonds to mature in 1971 and \$10,000,000 of serial notes due in from one to nine years.

The company proposes to sell \$38,000,000 of the first mortgage bonds for the purpose of refunding a like amount of 4% bonds currently outstanding and the remaining \$4,000,000 to partially finance a major construction program. Proceeds from the sale of the \$10,000,000 of serial notes would be used to redeem all presently outstanding serial notes and debentures of the company.

Major items in the proposed construction program, which involves a total expenditure of more than \$14,400,000 over a period of three years, are:

(1) Addition of a new 50,000 kilowatt electric generating unit at Dresser Station, near Terre Haute, and a 35,000 kilowatt unit at Edwardsport generating station, the combined cost being approximately \$8,425,000.

\$8,425,000.

(2) Approximately 450 miles of additional high-voltage electric transmission lines costing an estimated \$3,352,000 and including a new 132,000-voit line from Dresser Station to Louisville, Ky., and an extension from Lafayette to Kokomo of the 132,000-volt Dresser-Lafayette line which is now nearing completion.

(3) Various electric substation facilities costing approximately \$2,596,000

Besides these major additions to its generating and transmission capacity the normal construction needs of the company during the next three years will require an expenditure of about \$8,000,000, bringing the total estimated construction costs for this period to more than \$22,000,000.

Citing an estimated increase of 137,000,000 kilowatt hours, or 14%, in the total electric energy requirements of the system during the present year, R. A. Gallagher, President of the company, stated in the petition that the additional generating and transmission facilities

the petition that the additional generating and transmission facilities are vitally needed in order to assure adequate and continuous service to customers in the years immediately ahead.

In anticipation of expanding power requirements the company has, within the past year, completed the installation of a new 50,000-kilowatt generating unit at Dresser Station and several new high-voltage transmission lines to reinforce the supply of power in central and southern Indiana.

Outstanding obligations which will be redeemed by the company, if its petition is granted, include \$38,000,000 of Public Service Co. 4% first mortgage bonds, due Sept. 1, 1969; \$8,800,000 of Public Service Co. 3% serial debentures maturing semi-annually to Sept. 1, 1949; \$400,000 Northern Indiana Power 3% serial notes maturing annually to Feb. 27, 1946, and \$396,923 Central Indiana Power Co. 2.73% collateral notes maturing semi-annually to 1959.

Special Meeting of Shareholders on Nov. 24, 1941-A special meeting of the shareholders of the company will be held Nov. 24 for the purposes of considering and taking action with respect to the "authorizing, approving and consenting to the encumbering by this corporation, under the lien of that certain indenture of mortgage and deed of trust, dated Sept. 1, 1939, from Publ'c Service Co. of Indiana to The First National Bank of Chicago, as trustee," and for the purpose of "securing the payment of the bonds (and interest accruing thereon) issued or to be issued under the Service Company mortgage, of all or any part of the used and useful (or other) property and business of this corporation (now or hereafter owned by it), which is not now subject to the lien of the Service Company mortgage"—said encumbering to be effected through the execution and delivery by this corporation of an indenture which is to be supplemental to the Service Company mortgage and is to be in such form as the board of directors of this corporation may determine.

Robert A. Gallagher, President in a letter to share-holders, Oct. 27, states:

Company was created on Sept. 6, 1941, through the consolidation under The Indiana General Corporation Act, of Public Service Co. of Indiana, Terre Haute Electric Co., Inc., Central Indiana Power Co., Northern Indiana Power Co. and Dresser Power Corp. Upon its organization, it became liable for all the obligations of the consolidating companies, which obligations included first mortgage bonds as follows:

(1) Public Service Co. of Indiana first mortgage bonds: 4% Series A (due Sept. 1, 1969), \$38,000,000, and 3½% Series B (due March 1, 1971), \$4,650,000.

(due Sept. 1, 1969), \$38,000,000, and 3½% Series B (due March 1, 1971), \$4,650,000.

(2) Northern Indiana Power Co. first mortgage bonds: 4¼% Series A (due Jan. 1, 1965), \$10,038,000 (\$538,000 owned by the company and pledged with the United States of America to secure loans obtained for use in constructing rural electric lines).

(3) Terre Haute Electric Co., Inc., first consolidated mortgage 5% gold bonds (due May 1, 1944), \$3,764,000.

Company now proposes, subject to securing necessary approvals from shareholders and governmental regulatory agencies, promptly to refund the bonds outstanding under the mortgages of Northern Indiana Power Co. and Terre Haute Electric Co., Inc., and to clause those mortgages to be cancelled and discharged. Upon the consummation of such program, the company will have no first mortgage bonds outstanding except bonds issued under the Service Company mortgage. The accomplishment of such step will, in the opinion of the management, materially benefit the credit position of the company, improve its future ability to finance, and be decidedly advantageous to the shareholders.

In order to provide most of the funds necessary for the proposed refunding, contracts have been made to sell to eight insurance companies, subject to obtaining the above mentioned approvals, at 105% of face value, plus accrued interest, \$13,200,000 of the company Series C bonds, dated as of Nov. 1, 1941, due Nov. 1, 1971, bearing interest at 3%% per annum, and issued under the Service Company mortgage. Pive hundred and thirty-eight thousand dollars additional principal amount of the Series C bonds will also be issued and pledged with the Federal Government in fleu of the like amount of bonds now so pledged.

Before the Series C bonds can be issued, it is necessary, under the

with the Federal Government in fieu of the like amount of bonds now so pledged.

Before the Series C bonds can be issued, it is necessary, under the terms of the Sorvice Company mortgage, to extend the lien of time, mortgage to all the presently owned or after acquired property of the company which is of the kind and character now covered by the lien of that mortgage but is not now covered by such lien. The share-holders' meeting is being called for the purpose of securing the approval of the shareholders to the proposed encumbering of this additional property.

The completion of this refunding program will result in an annual reduction of \$146,450 in interest charges and the principal amount of bonds outstanding will be reduced \$64,000. If the refunding is consummated on Dec. 1, 1941, the premiums and duplicate interest to be paid in calling the Northern bonds and the Terre Haute bonds will be \$945,234. The premium to be received from the sale of the Series C bonds will be \$660,000. The difference of \$285,234, plus expenses of the refunding, will be provided from general funds of the company. The estimated expenses of the refunding, including fees to the State commission of \$34,345, and Federal stamp taxes of \$15,112, are \$81,500.

Rohr Aircraft Corp.—Registers With SEC-See "Chronicle," Nov. 6, p. 926.

St. Louis-San Francisco Ry.—Interest on Consols.— The committee for the consolidated mortgage bonds (Frederick H. cker, Chairman) in a letter dated Oct. 24 to holders of certificates deposit for, and holders of consolidated mortgage bonds of the company states:

Additional Interest Payment, Nov. 17,—Another payment on account of the overdue and unpaid interest on the consolidated bonds has been authorized by the District Court in St. Louis entered Oct. 11, 1941. Such order was entered and such payment was authorized upon the joint application of the committee and the committees representing the Fort Scott bonds and the prior lien bonds.

The amount payable on the consolidated bonds is at the rate of \$12.41 per \$1,000 bond of series A and \$13.57 per \$1,000 bond of series B. Under the terms of the order, these payments are to be in full for the balance remaining on the installment of interest due Dec. 1, 1932, on the series B bonds and March 1, 1933, on the series A bonds and on account of the interest which became due June 1, 1933, on the series B bonds and Sept. 1, 1933, on the series A bonds.

By the terms of the order, acceptance of this interest payment will constitute a waiver of interest on the interest represented by such payment. Pursuant to the terms of the committee's conformed plan and also to the terms of the Interstate Commerce Commission's plan embodied in its report and order of July 6, 1940, and its supplemental report and order of Nov. 16, 1940, the court order directing payment of interest contains the following provision:

"That upon the approval and execution of a plan of reorganization in these proceedings, the total amounts of interest by this order directed to be paid on the Fort Scott bonds, the prior lien bonds and the consolidated bonds shall, subject to further order of this court, be credited against the unpaid fixed and contingent interest accrued or to accrue for the years 1940 and 1941 upon the securities to be issued under such plan of reorganization in exchange for said Fort Scott bonds, prior lien bonds and consolidated bonds, respectively."

Payment of this interest will be made on and after Nov. 17, 1941.

Interest Payments on Other Bonds—The court order of Oct. 11, 1941, authorized and directed a payment of interest on the Fort Scott bonds of \$39.06 per \$1,000 bond; and on the prior lien bonds at the rate of \$11.92 per \$1,000 bond of series A and \$12.58 per \$1,000 bond of series B. The court order provides for appropriate adjustment at a later date if any of the payments made pursuant thereto should later prove inequitable.

Previous Part Payments of Interest—This is the fourth payment of

Previous Part Payments of Interest—This is the fourth payment of interest on the consolidated bonds since Sept. 1, 1932, previous payments having been made as follows:

		Amou	int of Payme	nt per \$1,000 Bo
Da	te	of Payment	Series A	Series B
Dec.	7.	1938	\$3.05	\$4.07
Nov.	1.	1939	8.37	11.16
Dan		1040	0.05	0.01

The committee is informed that, of the amounts previously author-The committee is informed that, of the amounts previously authorized to be paid to holders of consolidated bonds or certificates of deposit therefor, the railway trustees still hold about \$66,000, and Chase National Bank, New York, as depositary, still holds about \$34,000. Holders of consolidated bonds or certificates of deposit who have not yet taken steps to obtain payment to them of one or more such earlier payments of interest should do so at once. The funds edvering such payments are being held in special accounts and the only way in which you can obtain the benefit of such funds is to forward to Chase National Bank, New York, certificates of deposit or to the railway trustees fully registered bond or coupon bonds, with appropriate transmittal documents. appropriate transmittal documents.

Reported Earnings and Cash Position—The 1940 earnings available for interest amouted to \$5,362,000, or substantially more than the 1939 earnings available for interest (\$3,902,000). These earnings were realized on gross revenues of \$48.181,000, or slightly more than the \$47,716,000 gross revenues in 1939. For the first nine months of 1941, earnings available for interest aggregated \$9,153,187 compared with \$2,445,095 for the corresponding period of 1940.

The railway trustees estimate that, as of Dec. 1, 1941, and after making the interest payments provided by the court's order of Oct. 11, 1941, they will have cash in excess of \$13,900,000. No new money is expected to be needed for the purpose of reorganization.

Deposits and Assents—The aggregate principal amount of deposits and assents as of Oct. 15, 1941, was \$64.071.500 (of which \$336,000 were conditional), which is in excess of 54% of all consolidated bonds outstanding in the hands of the public.

The District Court has recently approved an allowance to the committee out of the debtor's estate covering part of the committee's expenses. After receipt of such allowance, withdrawal charges (now \$4 per \$1,000 bond for cancellation of assents) will be reduced. See also V. 154, p. 869.

Santa Fe Northwestern Ry.—Abandonment-

The ICC on Oct. 28 issued a certificate permitting abandonment by the company of its line of railroad extending from West Bernalillo to Gilman, approximately 37.1 miles, in Sandoyal County, N. Mex. The commission also issued a certificate permitting abandonment by J. G. Cleary, as trustee, successor to Santa Fe, San Juan & Northern RR., of operation under trackage rights over the line of the Santa Fe Northwestern Ry.—V. 145, p. 2243.

Schenley Distillers Corp.—New Director-

Election of Col. A. B. Blanton, President of a subsidiary, George T. Stagg Co. at Frankfort, Ky., as a member of the board of directors of this corporation, was announced on Nov. 1 by Lewis S. Rosenstiel,

Col. Blanton succeeds Joseph A. Thomas, partner of the firm of Lehman Brothers, who has resigned because he is on active duty with the United States naval air reserve.

Service Pay Continued For Schenley Employees—
Extension of salary benefits for six additional months to employees of this corporation who are being held in the nation's armed services for more than one year has been voted by the board of directors, Lewis S. Rosenstiel, Chairman, announced on Nov. 4.

From the inception of the Selective Service Act each employee who volunteered or was drafted has been receiving the equivalent of three months' salary during a year's service, Mr. Rosenstiel explained. Under the extended plan each employee will receive a week's pay for each month of srvice for six months beyond the first year.

In addition, the announcement said, employees being held in service will continue to have the company pay the full cost of their group insurance and to have available for themselves and their families the protection of the Schenley Foundation during the entire 30 months' selective service training period as extended recently by Congress.

The latter is a non-profit membership corporation established in 1937 to aid employees who through prolonged illness or other uncontrollable emergencies may find themselves in need of assistance.—V. 153. p. 1287.

Schumacher Wall Board Corp .- Dividend-

Directors have declared a dividend of \$3.50 per share on \$2 cumulative participating preferred stock, payable Nov. 15 to holders of record Nov. 5. Dividends are in arrears.—V. 153, p. 1287.

Silesian-American Corp. - Treasury Denies Application-

The Treasury announced Oct. 31 the denial of applications for licenses authorizing the purchase of Silesian Holding Co. by European interests. The proposed transaction, applications covering which have been denied, would have involved also a loan by such European interests to Silesian-American Corp. Previous applications involving a similar transactions were denied prior to the maturity on Aug. 1, 1941, of the Silesian-American Corp. bonds.

Protective Committee Formed for Bonds.

A committee headed by Max Winkler of Bernard. Winkler & Co., as chairman, has been organized for the 7% collateral trust bonds which came due Aug. I and were not paid. Other members of the committee are Feliz M. Lopez of Thomson & McKinnon and Edward W. Smith of the Clinton Trust Co. On July 29 corporation filed a petition for reorganization under the Bankruptcy Act and the court appointed Francis X. Conway as trustee and E. O. Sowerwine, secretary

of the corporation, as an additional trustee. The first hearing in the reorganization proceedings was held Sept. 24.—V. 154, p. 59.

Southern Railway-Purchase-

-V. 154, p. 438.

The SEC on Oct. 28 authorized the purchase by the company of the properties of the Asheville & Craggy Mountain Ry., Asheville Southern Ry. and Georgia Midland Terminal Co.

The report of the Commission states:

The report of the Commission states:

The applicant shows that the acquisition of these properties will be in the public interest by eliminating three unnecessary corporations and thus simplifying its own corporate structure. A slight saving in accounting expense will be effected, while the proposal will not increase fixed charges or involve any guaranty or assumption of the payment of dividends or fixed charges. No other railroad in the vicinity of these lines has sought to be included in the transaction.

1041 0 Mos -- 1040

No employees will be affected, as the operation of the different properties, which have been under the control of or operated by the applicant, will continue as in the past.

Fourth Week October - Jan. 1 to Oct. 31. Gross earnings (net) __ \$5,912,470 \$4,566,667 \$17,419,691 \$114,701,098 __V. 154, p. 870. 1941 1940

Southwest Natural Gas Co.—Bonds Sold Privately-The company has placed privately an issue of \$1,850,000 1st. mtge. Series A 3\%% bonds, dated Sept. 1, 1941 and due Sept. 1, 1956. Proceeds were used to redeem Southwest Gas Co. of Okla. bonds called for payment Nov. 1.

Manufacturers Trust Co. has been appointed trustee, paying agent and registrar under the indenture of mortgage dated Sept. 1, 1941.—

Standard Gas & Electric Co.—Weekly Output—

Electric output of the public utility operating companies in the Standard Gas and Electric Co. system for the week ended Nov. 1, 1941, totaled 155,482,000 kilowatt-hours as compared with 133,364,000 kilowatt-hours for the corresponding week last year, an increase of 16.6%—V. 154, p. 870.

Stanley Co. of America—Bonds Called—

Company has called for redemption on Dec. 1, next, all of its first mortgage 5½% sinking fund gold bonds of C. Benton Cooper, due June 1, 1945 of which there are \$6.014,500 outstanding.

The bonds will be paid off at 102½% and accrued interest at Pennsylvania Co. for Insurance on Lives and Granting Annuities, 15th and Chestnut Streets, Philadelphia.—V. 149, p. 4186.

State Line & Sullivan RR.—Control—

The ICC on Oct. 25 approved the acquisition by the Lehigh Valley RR. of control of the State Line & Sullivan RR. through ownership

RR. of control of the State Line & Sullivan RR. through ownership of stock.

The State Line was incorporated in Pennsylvania, with an authorized capital stock of 20,000 shares (par \$50) of which 18,632 are outstanding. Its line of railroad extends in a general northerly direction from Bernice to Monroeton, 24.03 miles. It has no branch lines. At the southern terminus the State Line connects with a portion of the Lehigh's Bowmans Creek branch which is disconnected from the remainder of the system, and at its northern terminus with the Susquehanna & New York RR., over which the Lehigh operates under trackage rights from Monroeton to a connection with its main line at Towanda, about four miles.

The Lehigh, or one of its wholly-owned subsidiaries, has been operating the State Line since 1884. Operations were conducted until April 30, 1934, under the terms of a lease which expired on that date. The parties being unable to agree upon the rental basis, the lease was not renewed, but prior to its expiration the Lehigh and the State Line filed applications with the ICC for permission to the latter to abandon the line and to the former to abandon operation thereof. The applications were denied.

Since May 1, 1934, operation of the State Line by the Lehigh has continued in obedience to orders of the Court of Common Pleas of Bradford County made in injunction proceedings instituted under section 1 (20) of the Interstate Commerce Act. No rental or other payments for the use of the property have been made, the amount of compensation having remained undetermined. The State Line insisted on a rental of \$40,000 a year, which was the amount payable under the lease.

The present proposal arose principally out of the parties' inability

on a rental of \$40,000 a year, which was the amount payable under the lease.

The present proposal arose principally out of the parties' inability to agree upon the amount of compensation for the use of the State Line's properties and because of the enforced operation thereof. With a view to effecting the proposed acquisition of control, but subject to ICC approval of the application, the Lehigh on March 1, 1941, entered into an agreement with the State Line, the latter acting through its managing director who was also made a party to the agreement as majority stockholder, to purchase all, or not less than 75%, of the outstanding capital stock of the State Line. The agreed purchase price is the sum of approximately \$150,000 for the 18,632 shares, or at the rate of \$8,0506 a share. The stock is not listed on any national securities exchange and has no ascertainable market value. The purchase price was determined by arbitration upon the basis of the salvage value of the line, the line's earning power, and the fact that through acquisition of control the Lehigh would be in a position to dispose of the rental liability for the period of enforced operation. The agreement is subject to the condition that the property and assets shall be free and clear of all encumbrances except that the Lehigh, at its election, has the right to purchase the stock subject to outstanding obligations on the property, but in that even the purchase price shall be reduced proportionately as provided in the contract.

contract.

The agreement was subsequently ratified and approved by a resolution adopted by a vote of the holders of 15,555 shares of State Line stock. It was also approved by the company's board of directors. As of June 27, 1941, certificates for State Line stock deposited for transfer in accordance with the terms of the agreement aggregated 15,278 shares, or more than 75% of the outstanding stock.—V, 76, 332.

Strawbridge & Clothier-Tenders-

The Gerard Trust Co., Philadelphia, Pa., will until Nov. 15 receive bids for the sale to it on Dec. 1 of sufficient 6% series A prior preference stock to exhaust the sum of \$40,000 at prices not exceeding \$105.

Texas Gulf Sulphur Co.-Earnings-

Period End. Sept. 30— 1941—3 Mos.—1940 1941—12 Mos.—1940 *Not profit \$1,469.959 \$2,757,763 \$8,098,132 \$10,091,923 *Earnings per share \$0.38 \$0.72 \$2.11 \$2.63 *After charges for depreciation, amortization, contingencies and Federal and foreign income taxes, and excess profits tax in 1941 periods. *On 3,840,000 shares capital stock. *The tax charge against the third quarter's earnings includes \$812,000 representing the increase in taxes applicable to the two preceding quarters resulting from the enactment of the 1941 Revenue Act.

For the six months ended June 30, 1941, earnings had been charged with income and excess profits taxes amounting to \$1,079,000, based

on tax laws then in effect. However, the increase in taxes resulting from the enactment in September of the Revenue Act of 1941, required that this charge be increased by \$812,000, which amount constitutes a part of the \$2,245,000 charged against earnings for the quarter ended Sept. 30, 1941.

For the first nine months of 1941 earnings have been charged with \$1,603,000 for Federal and foreign excess profits taxes and with \$1,721,-000 for Federal and foreign income taxes, a total of \$3,324,000. These Federal taxes have been accrued in accordance with the Revenue Act of 1941.

of 1941.
As of Sept. 30, 1941, current assets, including cash and U. S. Treasury notes of \$16,872,796, amounted to \$20,603,396. This does not include inventories of sulphur above ground or materials and supplies. Current liabilities (including provision for current taxes of \$4,985,773) amounted to \$5,590,870. Earned surplus of the company as of Sept. 30, including net earnings for the third quarter, and after payment of a dividend of 50 cents per share on Sept. 15, amounted to \$31,869,-493.—V. 153, p. 564.

\$4,929,415 \$10,165,703 *After depreciation and depletion reserves of \$2,262,722 in 1941 and \$4,941,915 in 1940. †Represented by 888,147 (888,146 in 1940) no-par shares. ‡Includes note receivable and accrued interest. §Includes \$24,264 reserve for additional Federal income taxes for prior years. Note—The balance sheet and statement of earned surplus at Sept. 30, 1941, incorporate two important changes:

30, 1941, incorporate two important changes:

(a) Reduction of earned surplus as of Dec. 31, 1940, by \$1,917,523 to a figure of \$3,831,058. The company considers it sound accounting to charge out such items as "dry holes drilled and wells abandoned in prior years" and "deficiency of reserve for depreciation and cost depletion in prior years"; which charges, together with some minor adjustments, constitute the reduction of earned surplus herein referred to. The company has heretofore not charged off abandoned properties when they became losses, nor lease rentals when paid out, but have included these items among the fixed assets. This procedure has been changed and the company is now charging out abandonments when they become losses and lease rentals when expended.

(b) Elimination from fixed assets of "appreciated value of Barbers."

(b) Elimination from fixed assets of "appreciated value of Barbers Hill Properties over cost, based on the Ralph E. Davis, Inc., Engineers' appraisal of Oct. 1, 1933" which, less reserves for depletion, amounted to \$3,050,120 at Dec. 31, 1940. The corresponding amount which was shown on the liability side of the balance sheet as "surplus from appraisal of Barbers Hill Properties" has also been eliminated. These figures serve no useful purposes and, a year ago, the Securities and Exchange Commission recommended that they be deleted so that all our properties would be shown on the balance sheet at cost. all our properties would be shown on the balance sheet at cost. V. 154, p. 260.

United Specialties Co.-To Eliminate Class B stock-Stockholders will vote Nov. 19 to amend the certificate of incorpora-tion by striking the present article fourth and by filing a new article fourth in lieu thereof to read as follows:

tion by striking the present article fourth and by filing a new article fourth in lieu thereof to read as follows:

"Fourth: The total number of shares of stock which the corporation shall have authority to issue is 200,000 shares of common stock of the par value of \$1\$ each. Each holder of record of stock of this corporation shall be entitled to one vote for each share thereof standing registered in his name on the books of the corporation."

The proposed amendment, which the board of directors by resolution Oct. 15, 1941, declared advisable, will eliminate all of the 27,000 shares of class B common stock of the company now authorized and unissued. Class B common stock, under the certificate of incorporation as previously amended, was convertible into common stock on a share for share basis whenever net earnings of the company available for dividends for a 12-month period should amount to \$389,612. This event of conversion did occur and on or before May 27, 1941, all of the 27,000 shares of class B stock were returned to the company and converted into an equivalent number of shares of common stock reserved for that purpose and none of the 27,000 shares of class B common stock is now outstanding. As presently constituted authorized capital of the company consists of 223,000 shares of common stock and 27,000 shares of class B common stock. Under the proposed amendment authorized capitalization would be 200,000 shares of common stock. There are now outstanding 170,000 shares of common stock. Company now seeks to simplify its corporate structure by having only one class of common stock authorized and to reduce its annual taxes by eliminating authorized shares of stock which are of no use or value to it. The proposed amendment will not alter the rights or powers of the stock of the company as now constituted, nor will the capital of the company be reduced under or by reason of said amendment.—V. 153, p. 411.

United States Rubber Co.-Wins Suit on Payment of

The company announced Nov. 3 that the U. S. Circuit Court of Appeals had decided unanimously in favor of the company in the suit which has restrained since last April 30 the payment of the first common dividend declared by the company in 20 years. The suit was brought by a holder of first preferred stock.

Directors of the company on March 5 voted to pay on April 30 to stockholders of record April 16 a dividend of 50 cents a share on the common stock. Shortly thereafter a first preferred stockholder sought to enjoin the company from making the payment on the ground that company had earnings in 1935 to 1937 from which dividends should be paid on the first preferred stock before any disbursements were made on the common. made on the common.

The company contended that no preferred dividend was possible because of deficits incurred in this period. On July 7 the Federal Court of Newark denied the application of the first preferred stock-holder, who then appealed to the U.S. Circuit Court of Appeals. -V. 154, p. 440.

Universal Consolidated Oil Co.-75-Cent Dividend-

Directors have declared a dividend of 75 cents per share on the common stock, payable Nov. 15 to holders of record Nov. 5. This compares with 25 cents paid on July 17, last, and 50 cents paid on June 12, 1940.—V. 153, p. 1006.

Virginia Coal & Iron Co.-\$1 Dividend-

Directors have declared a dividend of \$1 per share on the common stock, payable Nov. 15 to holders of record Nov. 3. This compares with \$1.50 paid on Sept. 4, last; dividends of 50c. per shart paid on June 2 and on March 3, last, and dividends totaling \$4 per share distributed during the year 1940.—V. 153, p. 707.

Virginia Public Service Co.—SEC Issues Supplemental Report on Capital Structure-

Report on Capital Structure—

The SEC on Oct. 30 made public a supplemental report prepared by the Public Utilities Division regarding the compliance by Virginia Public Service Co. with Section 11 (b) (2) of the Public Utility Holding Company Act of 1935.

On Aug. 12, 1941, the Commission issued a notice of and order for hearing under Section 11 (b) (2) of the Holding Company Act directed to Virginia Public Service Co. and its parent companies. Since the issuance of this notice and order, Virginia Public Service Co. and the trustees of Associated Gas & Electric Corp. (one of the parent companies) have had discussions with members of the Commission's staff looking toward the formulation of a refinancing plan for Virginia Public Service Co. and have undertaken negotiations with various bankers for that purpose.

Following these discussions, representatives of Virginia Public Service Co. requested the Public Utilities Division to advise them as to its views regarding an appropriate capital structure for that company for guidance in the formulation of a refinancing plan. Pursuant to this request, a supplemental report has been prepared, which discusses various financial aspects of the company, particularly the property account, earnings record, coverage of fixed charges, and the appropriate base for the issuance of senior securities.

The report expresses the tentative conclusion that:

"" * the maximum amount of senior securities which might be issued by Virginia Public Service Co. is \$34,541,000, consisting of not to exceed \$22,819,000 of first mortgage bonds, \$4,689,000 of serial notes and \$7,033,000 of preferred stock. In this connection the staff has tentatively concluded that senior securities in these amounts would be reasonably adapted to the capital structure and, assuming reasonable interest and dividend rates, would be reasonably adapted to the carning power of Virginia."

The public hearing in the Section 11 (b) (2) proceeding is scheduled for Nov. 12 at the Commission's Washington offices.—V. 153, p. 1

Washington Gas & Electric Co.—Seeks to Pay 80% of

Bonds-Hearing to be Held Nov. 25-The Chase National Bank, New York, as trustee under the mortgage securing the first mortgage gold bonds, has asked the court for an order interpreting, or in the alternative, so modifying the terms of the mortgage as to authorize the trustee to distribute all or substantially all of the \$5,900,843 held in the release fund, and to enter into and to carry out a proposed agreement with Nathan A. Smyth, the debtor's trustee, whereunder:

trustee, whereunder:
1. The trustee under the mortgage shall on Dec. 10, 1941, declare the principal of all said bonds and all interest accrued thereon, including interest on overdue interest, to be immediately due and pay-

able; and
2. Upon such declaration the trustee, from the \$5,900,843 now held by it in the release fund, shall set aside in a separate part payment fund a sum equal to the amount to be fixed by the court to be paid on the bonds and shall thereupon, upon presentation to it of any bond and appurtenant coupons for stamping and the detachment of coupons, pay to the owner thereof on account of principal and accrued interest the amount distributable thereon as fixed by the court; and
2. Further providing that for such payment the bondholders may look only to the part payment fund, but that for the payment of the amount due on the bonds not so paid, including interest thereon, the bondholders shall retain their pre rata rights under the mortgage with respect to all of the other assets pledged or held under the lien of the mortgage as security for such payment and otherwise.

The debtor and the debtors' trustee have agreed, subject to the

mortgage as security for such payment and otherwise.

The debtor and the debtors' trustee have agreed, subject to the approval of the court of the proposed agreement, to a distribution of 80% of the principal and interest accrued to Dec. 10, 1941, or approximately \$81.58 per \$100 of principal amount of each bond of the series of 1947, \$81.94 per \$100 principal amount of each bond of the series of 1953, and \$82.44 per \$100 of principal amount of each bond of the series of 1955. The debtor's trustee has filed a supplemental petition asking for authority to enter into such an agreement. If such 80% payment is made there will be a balance of approximately \$366,500 remaining in the release fund subject to the mortgage.

The trustee under the mortgage has also asked that it be allowed.

The trustee under the mortgage has also asked that it be allowed as reasonable compensation for its services to be rendered in making such distribution the sum of \$1.50 for each outstanding bond.

A hearing upon such petitions and to determine whether there has been sufficient service of the holders of such bonds to meet the requirements of law will be held by the court at Room 618 of the United States Court House, Foley Square, New York, N. Y., on Nov. 25, at which hearing or adjournment thereof objection to the granting of the prayers of the petitions may be made by any interested party—V. 154, p. 758.

West Jersey & Seashore RR.-Abandonment-

The ICC on Oct. 22 issued a certificate permitting abandonment by the company of the so-called Quinton branch extending from Alloway Junction southerly and westerly to Quinton, approximately 4.22 miles, in Salem County, N. J., and abandonment of operation thereof by the Pennsylvania-Reading Seashore Lines, lessee.—V. 146, p. 612.

Western New York Water Co.-Sale of \$4,400,000 Bonds and Notes Privately-

The SEC on Oct. 31 issued its findings and opinion approving the proposed issue and sale to the Northwestern Mutual Life Insurance Co. of \$3,000,000 first mortgage sinking fund bonds, 3%% Series, due 1966, and \$1,400,000 of 3%% sinking fund notes, due 1956. The bonds are to be sold at a price of 106.74% plus interest, and the notes are to be sold at 102.90% plus interest. The proceeds of the sale of the securities together with the proceeds of a temporary bank loan and

treasury funds, will be used to redeem the following principal amounts of outstanding securities:

(a) First mortgage bonds: \$2,067,500, Series A, 5½%, due 1950, at 105; \$668,000, Series B, 5%, due 1950, at 105; \$1,155,500, Series of 1951, 5%, at 101.

(b) Debentures: \$576,100 10-year 6%, convertible debentures, maturity extended to 1950, at 100, excluding \$400 reacquired Sept. 8, 1941.

Company is incorporated in New York and its sole business is the distribution of water at wholesale and retail to certain towns and water districts in the vicinity of Buffalo, N. Y. Its business is entirely intrastate.

The total principal amount of debt proposed to be retired is \$4,467,100. The total principal amount of new debt securities proposed to be issued is \$4,400,000. Thus the proposed refunding will of itself result in no substantial change in the ratio of debt to net prop-

However, in its order granting Western's pettion to issue proposed new securities, the New York Public Service Commission imposed a condition requiring the applicant to reduce its plant account by \$1,500,000, thus reducing the pro forma book value less reserve for depreciation to \$6,214,810. By reason of this write-down the ratio of debt to net property is increased from approximately 58% to a pro forma figure of 71%.

To offset the write-down of \$1,500,000 in the utility plant account, the order of the New York Public Service Commission was also conditioned to provide that a sharge of \$792,525 be made against capital surplus, thus eliminating the existing balance of such account, and that the remaining \$707,475 be charged to earned surplus. This charge to earned surplus, plus other charges thereto, made in connection with the proposed refunding will reduce the pro forma earned surplus as of Aug. 31, 1941, to \$66,070.

Bonds Called-

All of the outstanding first mortgage 5% gold bonds, Series B have been called for redemption on Jan. 1 at 105 and accrued interest. Payment will be made at Manufacturers & Traders Trust Co., Buffalo, N. Y., and at the Central Hanover Bank & Trust Co., New York City.

Western Public Service Co.-Step to Dissolve Company Due Shortly-

The New York "Herald-Tribune" recently stated:

A definite step will be taken within the next few days looking toward the eventual dissolution of company, a unit in the Engineers Public Service Co. system. Officials of the parent company are understood to be reconciled to the fact that under the holding company act there is little likelihood that Engineers will be permitted to retain this subsidiary, which serves Nebraska and portions of Colorado, Wyoming, South Dakota and Missouri.

The company has concluded arrangements for the sale of its properties in Las Animas, Col., to that city, and original plans called for the payment to have been made Oct. 23, but legal technicalities arose which will delay it for a few days.

In addition, negotiations are still proceeding for the disposal of the company's properties in Nebraska, which account for more than 75% of its operations, to the Consumers' Public Power District, a state authority, which has already taken over 13 electric companies in the

The parent company has signified its willingness to sell its properties if the authority is willing to pay enough for them. Communities in the western part of the state are reported to be unwilling to permit the Power District to take over Western Public Service's facilities and would prefer to condemn the properties themselves and operate them.

The Nebraska situation has been further complicated by the entrace of the Bureau of Reclamation which currently sells power from some of its irrigation developments to Western Public Service, which feeds it into its transmission lines. The Bureau is reported in the Nebraska press to be urging some of the western cities and towns to acquire the local distribution systems of Western Public Service and get their power from the government projects. power from the government projects.

The only other important private utility left in the State of Nebraska is Nebraska Power Co., an Electric Bond & Share Co. subsidiary serving the Omaha area.—V. 154, p. 550.

Western Union Telegraph Co., Inc.-Merger of Postal and Western Union Approved by Senate Committee-

The Senate interstate commerce committiee has unanimously recommended that Congress permit a merger of the Western Union and Postal Telegraph companies.

The committee approves, with minor changes, a report on the proposed merger previously adopted by a subcommittee after nearly two years of legislative hearings.

Senate Majority Leader Barkley (D., Ky.), a member of the committee, said that the next step would involve introduction of actual legislation carrying out the proposed recommendations involving nearly 60,000 workers and the two largest domestic telegraph com-

The Senate group recommended that the Federal Communications Act be amended to permit the merger now blocked by Federal anti-trust laws. It suggested that "international" and "domestic" telegraph facilities be separated and that the FCC be required to enforce this separation.

It also suggested that all pension rights and payments of employes prote ed and that all public communications services and rights be respected. The report also asked that financial structures of the resuting oppanies be simplified and 80% owned by American nationals.

Westinghouse Electric & Manufacturing Co.-Stock All Taken-\$20,000,000 Debentures To Be Issued-

-V. 154, p. 912.

A. W. Robertson, Chairman of the board, reported to the directors' meeting Nov. 5 that the 534,426 additional shares of common stock, which had been offered to stockholders Oct. 15 for subscription, had been solid. He disclosed that 506,223 shares had been subscribed for upon the exercise of the warrants issued to stockholders, and that the remaining 28,203 shares had been purchased by the underwriters purposed to agreement. pursuant to agreement.

The proceeds received by the company from the sales of the shares, Mr. Robertson reported, amounted to \$36,658,833, after deducting underwriting commissions, and after payment of taxes, printing costs, filing fees and other expenses in connection with the issue.

Mr. Robertson also reported that at the special meeting of the stockholders, Oct. 29, the stockholders adopted a resolution increasing the authorized indebtedness of the company to \$50,000,000 at any one time outstanding. This was a necessary step, he pointed out, in the general plan of financing now in progress. The officers of the company, in furtherance of the plan, are now proceeding with preparations for the issue of \$20,000,000 worth of debentures.

"New money which the company receives from the sale of additional stock and debentures will be used to pay off \$21,000,000 borrowed

for working capital," Mr. Robertson explained. "The balance will be added to the cash surplus of the company. Large amounts of cash will be required during the next few months to meet expanding payrolls, and the general needs of expanding business, such as larger accounts receivable and adequate inventories. No additional plants for national defense are contemplated, as extraordinary expansion of facilities will probably be financed by the Government."

To Pay \$1 Dividend-

Directors on Nov. 5 declared a dividend of \$1 per share on the common stock and on the 7% participating preferred stock, both payable Dec. 5 to holders of record Nov. 18. Similar payments were made on Aug. 29, May 29 and March 5, last, and on Dec. 20, Nov. 30 and Aug. 30, 1940—V. 154, p. 912.

York Ice Machinery Corp.—Petitions of Holders of preferred Before Federal Judge in Delaware-Issue Based on Merger-

Arguments on the petitions of persons seeking to intervene in the case of certain preferred stockholders against the corporation were heard by U. S. District Judge Albert J. Watson of Scranton, Pa., Nov. 3 in the U. S. District Court at Wilmington.

Nov. 3 in the U. S. District Court at Wilmington.

Judge Watson was designated by U. S. Circuit Court Judge John
Biggs, Jr., to take over the case. Initial proceedings had been heard
by former U. S. District Judge John P. Nields.

Certain of the preferred stockholders sued the company in an
effort to prevent the merger of the York Ice Machinery Corp. with the
York Corp., formed by York Ice Machinery. The plaintiffs prevented
the merger and obtained through the court a stipulation with the
original corporation providing for payment of \$80 a share to all the
plaintiff preferred stockholders and to all other preferred stockholders
who entered objections to the merger. who entered objections to the merger.

After approval of the stipulation, other preferred stockholders sought to intervene in the case. Howard Duane, Wilmington lawyer, speaking for one of these groups, said his clients and others assumed their rights as preferred stockholders were being included in the stipulation, even though they did not protest the merger.

Representatives for the original plaintiffs said all preferred stock-holders had ample opportunity to protest and come in and share in the original action against the corporation.—V. 154, p. 912.

York Railways-Interest Payment Reduced-

The company, which is undergoing reorganization under Section 77B, reported to the U.S. District Court at Philadelphia Oct. 30 that it will be able to pay only half of the semi-annual interest due Dec. 1, 1941, on its 34,990,000 5% gold bonds. The balance merely will be deferred until the compan yhas the funds to pay it.

Joseph E. Wayne, President of the company, stated in a report that the company's inability to pay the \$124,750 interest on Dec. 1 is due to the fact that the company will be required to make capital expenditures of around \$500,000 to meet the increased demands for transportation due to the National Defense Program in the York area and also to its rate difficulties with the Pennsylvania P. U.

On Mr. Wayne's petition, Judge Guy K. Bard authorized the company to make a payment of \$62,375 representing one-fourth of the annual interest of 5% provided the Pennsylvania Utilities Commission gives its approval to it.—V. 149, p. 3260.

Bank of England Statement

"Other cash" does not include Federal Reserve notes. | Less than \$500.

The Bank's note circulation for the week ended Nov. 5 revealed a new high record of £699,949,000. This week's advance of £6,622,000 raised the total increase in circulation for the last ten consecutive weeks to £35,-246,000. Gold holdings showed a loss of £95,957 and reserves of £6,718,000. Public deposits dropped £3,-192,000 and other deposits of £235,724. The latter includes bankers' accounts, which increased £3,051,762 and other accounts, which increased £3,051,762 and other accounts, which decreased £2,806,038. The proportion of reserve to liabilities fell off to 16.9% from 20.2% a week ago, compared with 20.6% a year ago. Government securities expanded £8,350,000 while other securities declined £4,572,231. Other securities comprise "discounts and advances" and "securities," which contracted £776,804 and £3,795,427 respectively. No change was made in the 2% discount rate. Below we furnish the various items with comparisons for previous years:

The Week with the Federal Reserve Banks

During the week ended Nov. 5 member bank reserve balances decreased \$38,000,000. Reductions in member bank reserves arose from increases of \$114,000,000 in money in circulation and \$18,000,000 in Treasury deposits with Federal Reserve Banks, and decreases of \$8,000,000 in gold stock and \$3,000,000 in Reserve Bank credit, offset in part by decreases of \$90,000,000 in nonmember deposits and other Federal Reserve accounts, and \$14,000,000 in Treasury cash and an increase of \$2,-000,000 in Treasury currency. Excess reserves of member banks on November 5, following the increase in reserve requirements effective Nov. 1, were estimated to be approximately \$3,410,000,000, a decrease of \$1,190,-000,000 for the week.

Changes in member bank reserve balances and related items during the week and the year ended Nov. 5, 1941, were as follows:

Weekly Return of the Board of Governors of the Federal Reserve System

The following was issued by the Board of Governors of the Federal Reserve System on Thursday afternoon, Nov. 6, showing the condition of the 12 Reserve Banks at the close of business on Wednesday. The first table presents the results for the System as a whole in comparison with the figures for the eight preceding weeks and presents the results for the System as a whole in the second table shows the resource and liabilities are stable. with those of the corresponding week last year. The second table shows the resources and liabilities separately for each of the 12 banks. The Federal Reserve note statement (third table following) gives details regarding transactions in Federal Reserve notes between the Reserve agents and the Federal Reserve banks.

"Other cash" does not include Federal Reserve notes.

†These are certificates given by the United States Treasury for the gold taken over from the Reserve banks when the dollar was devalued from 100 cents to 59.00 cents on Jan. 31, 1934, these certificates being worth less to the extent of the difference, the difference itself having been appropriated as profit by the Treasury under provisions of the Gold Reserve Act of 1934.

New York Money Rates

Dealing in detail with call loan rates on the Stock Exchange from day to day, 1% was the ruling quotation all through the week for both new loans and renewals. The market for time money continues quiet. Rates continued nominal at 11/4% up to 90 days and 11/2% for four to six months maturities. The market for prime commercial paper has been fairly brisk this week and the supply of paper has been in good volume, Ruling rates are \% \% - \\ 3/4 \% for all maturities.

Bankers' Acceptances

The market for prime bankers' acceptances remains quiet. Prime bills continue in short supply with the demand in excess of the supply. Dealers' rates as reported by the Federal Reserve Bank of New York for bills up to and including 90 days are ½% bid and 7/16% asked; for bills running for four months, 9/16% bid and 1/2 % asked; for five and six months, 5/8 % bid and 9/16% asked. The bill buying rate of the New York Reserve Bank is 1/2 % for bills running from 1 to 90 days.

Weekly Return of the New York City **Clearing House**

The weekly statement issued by the New York City Clearing House on Friday afternoon is given in full below:

Statement of members of the New York Clearing House Association at close of business Thursday, Nov. 6, 1941.

Note—The war in Europe has made it impossible to obtain up-to-date reports from many of the countries shown in this tabulation. Even before the present war, regular reports were not obtainable from Spain-and Italy, figures for which are as of April 30, 1938, and March 20, 1946, respectively. The last report from Switzerland was received Oct. 25; Beigium, May 24; Netherlands, May 17; Sweden, May 24; Denmark, March 29; Norway, March 1 (all as of 1940), and Germany as of Nov. 7, 1941, and France as of Aug. 22, 1941.

*Pursuant to the Currency and Bank, Notes Act, 1939, the Bank of England statements for March 1, 1939, and since have carried the gold holdings of the Bank at the market value current as of the statement date, instead of the statutory price which was formerly the basis of value. On the market price basis (168s. per fine ounce), the Bank reported holdings of £1,441,660, equivalent, however, to only about £728,139 at the statutory rate (84s. 11½d, per fine ounce), according to our calculations. In order to make the current figure comparable with former periods as well as with the figures for other countries in the tabulations, we show English holdings in the above in statutory pounds.

x Gold holdings of the Bank of Germany as reported in 1939 and nce include "deposits held abroad" and "reserves in foreign curren-

y The Bank of France gold holdings have been revalued several times in recent years; on basis of latest valuation (23.34 mg. gold 0.9 fine equals one franc), instituted March 7, 1940, there are per British statutory pound about 349 francs; prior to March 7, 1940, there were about 296 francs per pound, and as recently as September, 1936, as few as 125 francs were equivalent to the statutory pounds tails of changes, see footnote to this table in issue of July 20, 1940.

Discount Rates of the Federal Reserve Banks

There have been no changes this week in the rediscount rates of the Federal Reserve banks; recent advances on Government obligations are shown in the footnote to the table. The following is the schedule of rates now in effect for the various classes of paper at the different Reserve banks:

Discount Ra	ites of Federal	Reserve Banks	
Federal Reserve Banks	Nov. 7	Date Established	Previous Rate
Boston New York	1	Sep 1, 1939 Aug 27, 1937	1 1/2
Philadelphia Cleveland Richmond	1 ½ 1 ½ 1 ½	Sep 4, 1937 May 11, 1935 Aug 27, 1937	2 2 2
Atlanta Chicago	•1½ •1½	Aug 21, 1937 Aug 21, 1937	2 2
St. Louis Minneapolis Kansas City	1 ½ 1 ½ • 1 ½	Sep 2, 1937 Aug 24, 1937 Sep 3, 1937	2 2
Dallas San Francisco	11/2	Aug 31, 1937 Sep 3, 1937	2 2

*Advances on Government obligations bear a rate of 1%, effective Sept. 1, 1939, Chicago; Sept. 16, 1939, Atlanta, Kansas City and Dallas; Sept. 21, 1939, St. Louis.

Course of Sterling Exchange

The market for sterling exchange is steady and dull. The free pound closely approximates official rates. The range for sterling this week has been between \$4.03¼ and \$4.04 for bankers' sight, compared with a range of between \$4.03¼ and \$4.03¾ last week. The range for cable transfers has been between \$4.03½ and \$4.04, compared with a range of between \$4.03½ and \$4.04 a week ago.

Official rates quoted by the Bank of England continue unchanged: New York, \$4.02½-\$4.03½; Canada, 4.43-4.47 (Canadian official, 90.09c-90.91c per United States dollar); Australia, 3.2150-3.2280; New Zealand, 3.2280-3.2442. American commercial bank rates for official sterling continue at 4.02 buying and 4.04 sell-

In London exchange is not quoted on Germany, Italy, or any of the invaded European countries. Since July 26 exchange on China and Japan has been suspended by Government order. In New York exchange is not quoted on any of the Continental European countries due to the June 14 Executive freezing order. Exchange on Japan and China was similarly suspended on July 26, but trading in the Shanghai yuan was resumed on Aug. 4 under special Treasury license.

Immediate delivery to Britain and Russia of "everything we can possibly provide into the hands of people who can use them and use them well right now . . . against the enemy while he is still thousands of miles from our shores" was urged in a radio broadcast last week by OPM Materials Director Wm. L. Batt on the basis of his observations as a member of the American mission at the three-power conference in Moscow. He declared that the visit had convinced him that all-out aid is the only policy to follow. On Wednesday John H. Martin, assistant director of policies of the OPM management division, told business leaders attending a "priorities clinic" that the nation is producing 45% more than in 1929. He said American shipyards will produce a ship a day in the first three months of 1942, and that factories are now turning out 2,000 planes a month, 10 light tanks a day, about 5 medium tanks, and are employing 2,000,000 more workers than in 1940.

Licensing of British exports of products containing materials similar to those obtained under the lend-lease program has been placed under a modified procedure intended both to expedite shipments and tighten their supervision. United States importers must continue to apply to the Lend-Lease office for "certificates of necessity" showing that the goods are needed for replacement or otherwise essential to production, but instead of requiring the American importer to send the certificate to the British shipper for approval by his government, the United States Lend-Lease Office will advise the British Embassy that it does not object to the requested import. Copies of the letter will be sent to England for action by the export control.

The Food Ministry announced on Nov. 1 that 41,000 tons of canned meats, fish and beans, mostly from the United States, will be placed on sale Nov. 17, in a supplementary rationing plan. Concern is reported in British and American quarters because of the disclosure by a United States government official recently returned from London that Great Britain will eventually realize approximately \$1,500,000,000 from the sale of lend-lease food under strict rationing and price control arrangements. While unfavorable reaction by both the British and American public is thought likely, the British authorities are said to consider the sale method more practical there than an adaptation of the food stamp relief plan in use in the United States.

The United States Department of Commerce reported on Oct. 30 that the United Kingdom took \$129,372,000 of the total United States exports of \$455,669,000 during August, an increase of 27% compared with July and of 30% over the preceding year. British Empire countries and Egypt absorbed 71% of the total United States exports in August, Latin America received 19%, and 10% went to the Far East. Imports from British Empire countries rose to \$145,000,000 from \$132,000,000 during August. Exports to the United Kingdom during the first 8 months of 1941, including lend-lease shipments, amounted to \$881,000,000 and the British Empire countries and Egypt took \$1.055,000,000, representing increases of 48% and 52%, respectively, over the 1940 period.

Fifty high-speed escort vessels of secret design will be built for Britain with \$300,000,000 of lend-lease Navy Department officials announced Iunas. day. By next year production is expected to reach two convoy vessels a month. The British Government announced on Oct. 30 that it has decided to waive its belligerent rights to seize Axis ships held in United States and other American ports, provided the ships are used to aid the Allied cause, as planned by the inter-American financial and economic advisory committee. It is thought likely in diplomatic quarters in Washington that control of non-Axis shipping may pass from London to an international committee in the United States if the Neutrality Act is revised, as some Allied countries which are now obliged to take pound sterling credits for the use of their ships by Britain are reported eager to obtain dollar credits for war materials and debt payments. Repayment by the Cunard Company of £7,950,000 of its debenture debt to the British Government, made possible by the receipts of large sums for lost ships and from the sale of investments has reacted favorably on shipping shares. It is expected that arrears on preferred Cunard stock may be paid off soon, permitting the resumption (Continued on Page 972)

THE COURSE OF BANK CLEARINGS

Bank clearings this week show an increase compared with a year ago. Preliminary figures compiled by us, based upon telegraphic advices from the chief cities of the country, indicate that for the week ended today, Saturday, Nov. 8, clearings from all cities of the United States from which it is possible to obtain weekly clearings will be 25.0% above those for the corresponding week last year. Our preliminary total stands at \$7,225,569,552, against \$5,782,760,506 for the same week in 1940. At this center there is an increase for the week ended Friday of 24.2%. Our comparative summary for the week follows:

Clearings, Returns by Telegraph Week Ended November 8	1941	1940	Percent
New York	\$3,018,334,216	\$2,409,922,756	+ 24.2
Chicago	329,282,942	241,050,920	+ 36.6
Philadelphia	404,000,000	310,000,000	+ 30.3
Boston	283,648,303	219,205,802	+ 29.4
Kansas City	103,609,652	73,666 650	+40.6
St. Louis	108,100,000	74,300,000	+45.5
San Francisco	170,400,600	114,967,000	+48.2
Pittsburgh	143,752,765	102,554,525	+40.2
Detroit	138,725,712	96,182,598	+44.2
Cleveland	123,235,192	91,540,797	+34.6
Baltimore	90,293,436	60,963,164	+ 48.1
Eleven cities, five days	\$4.913.382,218	\$3,794,354 212	+ 29.5
Other cities, five days	1,107,925,775	843,658,760	+ 31.3
Total all cities, five days	\$6,021,307,993	\$4,638,012,972	+ 29.8
All cities, one day	1,204,261,559	1,144,747,534	+ 5.2
Total all cities for week	\$7,225,569,552	\$5,782,760,506	+ 25.0

Complete and exact details for the week covered by the foregoing will appear in our issue of next week. We cannot turnish them today, inasmuch as the week ends today (Staurday) and the Saturday figures will not be available until noon today. Accordingly, in the above the last day of the week in all cases has to be estimated.

In the elaborate detailed statement, however, which we present further below, we are able to give final and complete results for the week previous-the week ended Nov. 1. For that week there was an increase of 18.9%, the aggregate of clearings for the whole country having amounted to \$7,882,261,831 against \$6,630,417,638 in the same week of 1940. Outside of this city there was an increase of 26.6%, the bank clearings at this center having recorded an increase of 12.6%. We group the cities according to the Federal Reserve districts in which they are located and from this it appears that the New York Reserve District (including this city), recorded a gain of only 13.1%, the smallest of any District in the country. Other Districts showed increases ranging upward from this level to a peak of 40.4%, the increase registered in the St. Louis District. The gain at St. Louis was, however, exceptional; the next highest gain was 31.9% and this was recorded in both the Cleveland and Atlanta Districts. San Francisco followed closely with an increase of 30.1% but the next highest. Philadelphia, was able to show only 26.1% improvement. Other Districts registered gains as follows: Chicago, 24.1%, Dallas, 23.5%, Minneapolis, 21.7%, Kansas City. 21.2%, Richmond, 20.9%, and Boston, 18.8%.

In the following we furnish a summary by Federal Reserve districts.

Week Ended Nov. 1, 1941	SUMMARY O	F BANK CLEARINGS			The second second
Federal Reserve Districts	1941	1940	Inc. or Dec. %	1939	1938

Member Bank Condition Statement

Board of Governors of the Federal Reserve System respecting the returns of the entire body of reporting member banks of the Federal Reserve System for the week ended with the close of business Oct. 29.

The condition statement of weekly reporting member banks in 101 leading cities shows the following principal changes for the week ended October 29: Decreases of \$143,000,000 in reserve balances with Federal Reserve Banks, \$55,000,000 in balances with domestic banks, \$124,000,000 in demand deposits-adjusted, and \$101,000,000 in deposits credited to domestic banks, and an increase of \$55,000,000 in United States Government deposits.

Commercial, industrial and agricultural loans declined \$17,000,000 in New York City and \$2,000,000 at all reporting member banks, and increased slightly in most of the other districts.

Holdings of Treasury bills declined \$39,000,000 in New York City and \$20,000,000 at all reporting member banks,

and increased \$20,000,000 in the Chicago district. Holdings of Treasury notes increased \$23,000,000 in New York City and \$22,000,000 at all reporting member banks.

Demand deposits-adjusted declined \$207,000,000 in New York City and \$124,000,000 at all reporting member banks, and increased \$50,000,000 in the Chicago district. United States Government deposits increased \$48,-000,000 in New York City and \$55,000,000 at all reporting member banks.

Deposits credited to domestic banks declined \$65,000,-000 in New York City and \$101,000,000 at all reporting member banks.

A summary of the principal assets and liabilities of reporting member banks together with changes for the week and the year ended Oct. 29, 1941, follows:

		Increase (+) Since	or Decrease (—) Since

† "Other cash" does not include Federal reserve notes or a bank's own Federal Reserve bank notes.

• These are certificates given by the United States Treasury for the gold taken over from the Reserve banks when the dollar was, on Jan. 31, 1934, devalued from 100 cents to 59.06 cents, these certificates being worth less to the extent of the difference, the difference itself naving been appropriated as profit by the Treasury under the provisions of the Gold Reserve Act of 1934.

Course of Sterling Exchange

of dividends on common stock which have been suspended since 1929.

British labor and management experts who studied American production methods at the invitation of defense authorities, have reported to the OPM directors and the British Government that while they were impressed by the magnitude of the production already attained, the defense and lend-lease programs cannot become fully effective until labor relations have been placed on a sound basis. To that end they recom-mended the adoption of a program based on long Bri-tish experience with the trade union movement. Public accounting for the disposition of laber union funds was stated to be fundamental in order to gain public confidence, eliminate racketeering elements, and ensure intelligent, honest leadership. Management should be required to recognize labor's right both to organize and to participate in determination of wage and hour policies, and representatives of industrial management should be authorized to make agreements binding on whole industries. As a corollary to these recommendations it was proposed that wage rates should be adjusted to living costs.

Within the next two months the Labor Ministry will withdraw from the woolen and worsted trades all women between 20 and 25 for war work. Only plants devoting 75% of their capacity to Government orders or utility cloths are exempt. Despite the acute labor shortage, on Sept. 15 Britain had 196,594 unemployed, 40% fewer than in September, 1940. When the war began nearly 1,400,000 were unemployed in Great

'Calls for increased production in the "war of the workshops" were renewed both in Britain and the United States. Labor Minister Bevin demanded "six months of resolute, urgent, persistent and sustained effort over the whole field of industry" in order to turn the expected spring invasion attempt into "Hitler's finale." President Beasanalt machinism. finale." President Roosevelt, proclaiming Nov. 11-16 Civilian Defense Week, called for longer hours to produce munitions and urged the people to halt waste and refrain from unnecessary use of critical materials required for defense.

Wartime shortages have forced the countries involved in the war to develop comprehensive methods of utilizing all waste materials. In England the Salvage Department in the Ministry of Supply supervises a conservation program carried out through 1,600 local authorities responsible for collecting and marketing scrap regularly, using the proceeds for local relief purposes. The program is yielding a pound of freier purposes. The program is yielding a pound of iron and steel scrap a month for every person, saved 40 shiploads of paper last year and enough kitchen waste to feed 100,000 pigs. H. G. Wood, Controller of Salvage, stated on Wednesday that a thousand tons of waste paper are being obtained daily from homes and sufficient scrap metal has been collected in the last 23 months for 2 cruisers, 10 or 12 destroyers, 10, 000 tanks or 15,000,000 shells.

The persistent rise in currency circulation, which in 12 months has increased by about £100,000,000, is only partially explained by the vast expenditures for war production and taxes, which are offset by diminished spending because of rationing and depleted supplies of consumer goods. Financial observers ascribe the excessive circulation also in part to the activity of black markets, to concealment of profits by unscrupulous traders, and especially to hoarding both by wage earners who are setting aside a larger proportion of their pay and by owners of capital seeking safety for their funds. It is estimated that two-thirds of the £1,500,000 yearly output of British diamond manufacturers is being taken by hoarders, resulting in a recent warning to the Diamond Manufacturers Association to adhere to its agreement to export 75% of its output in order to provide the Government with needed foreign exchange.

The "Financial News" bond index, based on 1928 as 100, reached a war-time high record on Nov. 2 of 131.8, reflecting expected further requisitioning of Indian Government securities which would force additional investment funds into war loans.

An analysis of debt increases of five major nations during the 1930-1940 decade based on researches by Dr. Simeon E. Leland of the University of Chicago, shows that Germany's debt increased 600%, reflecting heavy war preparations during the entire period. Japan's 500% increase occurred chiefly during the war with China. The United States debt rose 165% that of Great Britain only 20% during the decade. Defense spending has lifted the United States debt by \$6, 000,000,000 in 1941 and will add another \$13,000,000,000 during the present fiscal year. With the gross United States debt now in excess of \$54,000,000,000, it is predicted in financial circles that the present \$65,000,000,-000 will have to be lifted and that the national debt will eventually reach \$100,000,000,000. On the assumption that Britain will win the war without a United States expeditionary force, Dr. Carl Shoup, Associate Professor of Economics at Columbia University, forsees in his new study, "Federal Finance in the Coming Decade," that defense outlay will reach a peak of \$29,-900,000,000 in the 1943 fiscal year and that total Federal expenditures will rise from \$13,000,000,000 in 1941 to \$23,000,000,000 in 1942 and to \$29,000,000,000 in 1943. Non-defense items will absorb \$7,000,000,000 of the nation's annual budget until 1944. Professor Shoup predicts a post-defense depression entailing continued Federal outlays of \$15,000,000,000 to \$17,000,000,000 in the last half of the decade.

the control for points are the fact that the first the first and seeing of both to the

United States manufactures and have them handled by the South African Purchasing Commission here, according to J. A. Reid, director of the commission, because of difficulties in getting small orders filled. German efforts to acquire control of Suez Canal shares by purchasing French holdings are reported from Cairo. About 40% of the total of 619,848 Canal shares

paid in francs, at no cost to the Germans since they obtain the francs as occupation costs. Britain holds 177 .-000 shares of Suez Canal stock, and the remainder is in United States, Egyptian, Italian, and Dutch hands. Share control is academic under war conditions since Britain retains actual possession of the canal.

Export of 35 chemicals, including various alcohols, are believed held in France. German purchases are ingredients of synthetic resins, latex and other rubber compounds, turpentine and glue in various forms and derivatives, is restricted to Great Britain and Northern Ireland, Iceland, Canada and the Philippines, under a schedule issued by the Office of Export Control on

The Canadian dollar advanced from last Saturday's closing price of 88.56, reaching 89.12 on Wednesday. Establishment of a Joint Defense Production Committee "to coordinate the capacities of the two countries for the production of defense material" was announced in Washington on Nov. 5, following President Roosevelt's week-end conference at Hyde Park with Prime Minister Mackenzie King. The announcement was regarded in some Canadian quarters as a possible preliminary to a change in financial arrangements under which Canada might receive lend-lease aid.

Purchases by the Munitions and Supply Board are exempted from the order-in-council announced on Nov. 2, imposing a price ceiling determined by maximum prices prevailing during Sept. 15 to Oct. 11 on all retail goods and 11 specific services, effective Nov. 17. The exemption will apply to about \$500,-000,000 of war imports from the United States this year. Another \$500,000,000 of United States foods and other necessary products will be subject to the maximum price restrictions, but the Price Control Authority is expected to adjust tariff rates to offset higher United States prices. The Wartime Prices and Trade Board is empowered to vary maximum prices, prescribe terms of sale or exempt persons or goods from the regulations. Goods sold for export are also specifically exempted.

Canadian income tax collections during October of \$30,548,915 were more than 3 times the \$9,557,703 collected in October, 1940. For the first 7 months of the current fiscal year, April 1 to Oct. 31, income tax revenue amounted to \$347,613,441, against \$153,209,950 in the 1940 period.

Montreal funds ranged during the week between a discount of 11 5/16% and a discount of 10 15/16%. The amounts of gold imports and exports which follow are taken from the weekly statement of the United States Department of Commerce and cover the week ended Oct. 29, 1941.

Gold held under earmark at the Federal Reserve banks was increased during the week ended Oct. 29 by \$8,933,019 to \$2,045,556,244.

Continental And Other Foreign Exchange

Extension of a \$1,000,000,000 lend-lease credit to Russia was announced on Thursday. The loan will carry no interest and repayment is to be made in 10 years starting five years after the war. Export figures published by the United States Department of Commerce on Oct. 30 show that exports to Russia, probably consisting mostly of war materials, were trebled in August, amounting to \$9,038,000, compared with \$3,133,000 in July. The gain in shipments to Russia more than offset the virtual cessation of trade with Japan due to freezing of Japanese assets in July. A shipment of \$5,549,635 of Russian gold during the week of Oct. 22 completed repayment within 65 days of \$10,000,000 advanced several weeks ago for 90 days. The Treasury has advanced the Soviet Government another \$30,000,000 against gold deliveries within three months. Planes, drugs and grain are reported to be

most urgently needed by Russia at present. United States policy, based on reports by the recent mission to the Moscow conference, is reported to be to rush all possible planes and equipment to Russia, even at the expense of the United States Army, in an effort to stabilize the Russian front. United States and British munitions and supplies are reported moving steadily into Russia by way of the Archangel and Persian

Sharp increases in German taxes on tobacco, spirits, and champagne effective Nov. 3 are designed to reduce civilian consumption for the benefit of the armed forces. The Secretary of State in the Finance Ministry stated that the income tax this year will yield \$12,800,000,000 and that the income from other taxes and occupied countries will bring the total Reich revenue to \$18,000,000,000. He asserted that Germany's financing is now assured no matter how long the war lasts, by the increased taxes and by measures blocking a portion of total savings deposits until a year after the war and sterilizing idle industrial funds, offering tax exemptions as an inducement to place at the disposal of the Government these private savings and industrial "investment balances" which would normally be expended on replacements.

Less than 5% of foreign investments in this country, largely owned in Latin America, are exempt from Government control, it was stated recently by Paul D. Dickens, a United States Commerce Department expert, disclosing that only slight changes are now possible in the total investments of blocked countries Approximately \$5,500,000,000, or 60% of the estimated total of foreign investments in the United States are affected by freezing of the dollar assets of Continental Europe, China, and Japan, and while \$3,-800,000,000, constituting 35% of foreign investments, owned by the United Kingdom, Canada, and other Empire areas are not blocked, they are subject to strict licensing control by the governments concerned, he

In order to expand production by Italian war industries, increased capitalization was authorized on Nov. 1 of 29 of Italy's largest corporations, three big banks, and the corporations for industrial financing and for subvention of industrial shares.

Conversion of about 6,000,000,000 francs in 5% and 6% French post office bonds is to be effected by the issuance on Nov. 15 of new 30-year 4% bonds. Cash subscriptions will not be accepted. The Bank of France statement for Oct. 9, issued on Nov. 2, shows an increase in circulation of about 120,000,000 francs and of gold cover to 24.92%, a decline in bills discounted of more than 500,000,000 francs, and a reduction in sight obligations of nearly 1,000,000,000 francs. The Treasury repaid another 700,000,000 francs of its ordinary debt to the bank. Special advances to cover occupation costs reached 126,629,000,000 francs, within 4,000,000,000 francs of the available total of \$130,-000,000,000 francs.

Exchange on the Latin American countries continued irregular but without special feature. A 2,-500,000,000-peso internal conversion loan was launched on Nov. 7 by the Argentine Government to save about 112,200,000 pesos in interest charges and to bring the bonds into the tax-paying class. The present 5% bends will be converted into taxable bonds redeemable in 33 years at 108 pesos. Present 41/2s will be convertible into taxable 4s redeemable in 25 years at 106.85, and similar 3½% bonds, convertible into 4,s, will be redeemable in 41 years at 108.45 pesos. The bonds will be offered at 93 up to Nov. 13 and at 93.20 until the lists are closed on Nov. 20. Announcement of the internal conversion program reacted favorably on external loan quotations. Publication of a new United States blacklist of 250 Latin American firms was reported imminent on Nov. 6.

The Argentine unofficial or free market rate closed at 23.85, against 23.85. The Argentine official peso is pegged at 29.77. The Brazilian milreis closed at 5.15, against 5.15. Chilean exchange is quoted nominally at 5.17, against 5.17. The Chilean export peso is quoted nominally at 4.00, against 4.00. Peru is nominal at 15.75, against 15.75. The Mexican peso is quoted nominally at 20.65, against 20.70.

Exchange on the Far Eastern countries is quiet. In-

creases of from 20% to 100% in direct and indirect taxes are to be placed before the 5-day special session of the Japanese Diet which opens on Nov. 15. Increased revenue from consumption and luxury taxes is expected to amount to 170,000,000 yen this year and would yield 630,000,000 yen in a normal year. Tobacco price advances of 100% are intended to produce another 146,-000,000 yen a year. Direct taxes have already been increased by 600% in the last five years. Removal of freezing restrictions and restoration of the basic Japanese-United States treaty of commerce and friendship are included in the objectives listed in the Japanese 7-point program for improvement in relations with the United States. Funds have been made available for payment of interest on \$60,000,000 of Imperial Japenese Government 5½% bonds and \$11,000,000 of Oriental Development Co. 5½% bonds. The necessary United States Treasury license was granted on Nov. 1.

The Shanghai yuan closed on Friday at 5.50, against 5.50, on Friday of last week. The Hong Kong dollar closed at 25 5/16, against 25 5/16; Manila at 49.85, against 49.85; Singapore at 47½, against 47½; Bombay at 30.35, against 30.35; and Calcutta at 30.35, against 30.35.

Bank of Germany Statement

The statement of the Bank for the last quarter of October showed notes in circulation at 16,431,804,000 marks, an advance of 66,083,000 marks from the previous quarter. Circulation as of Sept. 30, 16,917,876,000 marks, was the highest on record; a year ago it was 12,937,298, 000 marks. Gold and foreign exchange declined 266,000 marks to a total of 77,334,000 marks while bills of exchange and checks expanded 1,121,418,000 marks to a record total of 18,455,814,000 marks. The proportion of gold and foreign currency to note circulation fell off to 0.44%, the lowest on record, compared with the previous low, 0.46%, Sept. 30 and 0.60% a year ago. Investments lost 1,436,000 marks while other assets and other daily maturing obligations rose 192,560,000 marks and 151,450,000 marks respectively. Below we show the various items with comparisons for previous years:

Quicksilver

Producers in this country appear to be well sold up so far as the next three months are concerned, which accounts for the dearth of offerings. Nearby posi-tions on the Pacific Coast are nominally \$193 per flask, though some sellers have indicated that they would not move up to that level "if they had quicksilver to sell." The situation in New York has not changed, and quotations continued at \$195 to \$197 per flask. Imports from Mexico are expected to increase, though largely for account of the Government.

Silver

During the past week the silver (Continued on page 974)

Daily Average Crude Oil Production for Week Ended Nov. 1, 1941, Drops 27,600 Barrels

The American Petroleum Institute estimates that the daily average crude oil production for week ended Nov. 1, 1941 was 4,071,200 barrels. This was a drop of 27,600 barrels from the output of the preceding week and the current week's figures were above the 4,012,900 barrels calculated by the U. S. Department of the Interior to be the total of restrictions imposed by the various oil-producing States during October. Daily average production for the four weeks ended Nov. 1, 1941 is estimated at 4,087,900 barrels. The daily average output for the week ended Nov. 2, 1940, totaled 3,479,950 barrels. Further details as reported by the Institute follow:

Reports received from refining companies owning 86.4% of the 4.538,000 barrel estimated daily potential refining capacity of the United States, indicate that the industry as a whole ran to stills, on a Bureau of Mines' basis, 4,080,000 barrels of crude oil daily during the week, and that all companies had in storage at refineries, bulk terminals, in transit and in pipe lines as of the end of the week, 83,223,000 barrels of finished and unfinished gasoline. The total amount of gasoline produced by all companies is estimated to have been 13,504,000 barrels during the week.

aThese are Bureau of Mines' calculations of the requirements of domestic crude oil based upon certain premises outlined in its detailed forecast for the month of October. As requirements may be supplied either from stocks, or from new production, contemplated withdrawals from crude oil inventories must be deducted from the Bureau's estimated requirements to determine the amount of new crude to be produced.

bOkla, Kans., Neb., Miss., Ind. figures are for week ended 7 a. m. Oct. 29.

Chis is the net basic 31-day allowable as of Oct. 1, but experience indicates that it will increase as new wells are completed, and if any upward revisions are made. With a few exceptions the entire State, including Panhandle, was ordered shut down on Oct. 4, 5, 11, 12, 18, 19, 25, 26 and 31.

dRecommendation of Conservation Committee of California Oil Producers.

NOTE:—The figures indicated above do not include any estimate of any oil which might have been surreptitiously produced.

11.775c.; export copper, f.o.b. refinery 11.200c.; Straits tin, 52.000c.; New York lead, 5.850c.; St. Louis lead, 5.700c.; St. Louis, zinc, 8.250c.; and silver, 34.750c.

The above quotations are "M. & M. M's" appraisal of the major United States markets, based on sales reported by producers and agencies. They are reduced to the basis of cash, New York or St. Louis, as noted. All prices are in cents per pound. Copper, lead and zinc quotations are based on sales for both prompt and future deliveries; tin quotations are for prompt delivery only.

In the trade, domestic copper prices are quoted on a delivered basis; that is delivered at consumers' plants. As delivery charges vary with the destination, the figures shown above are net prices at refineries on the Atantic seaboard. Delivered prices in New England average 0.225c, per pound above the refinery basis.

Export quotations for copper are reduced to net at refineries on the Atlantic seaboard. On foreign business, owing to the European War, most sellers are restricting offerings to f.a.s. transactions, dollar basis. Quotations for the present reflect this change in method of doing business. A total of 0.05c. is deducted from f.a.s. basis (lighterage, etc.) to arrive at the f.o.b. refinery quotation.

Due to the European war the usual table of daily London prices is not available. Prices on standard tin, the only prices given however, are as follows: Oct. 30, spot £255, three months, £259¼; Oct. Holiday 11.200 Holiday Holiday Holiday Holiday Holiday 11.775 11.200 52.000 5.85 5.70 8.25 8.25 11.775 11.200 11.

(Continued from page 949)

Winston-Salem, N. C. Bond Sale—The coupon semi-ann. general and school refunding bonds aggregating \$200,000, of-fered for sale on Nov. 4—v. 154, p. 786—were awarded jointly to C. F. Childs & Co., and Paine, Webber & Co., both of Chicago, paying a premium of \$170.80, equal to 100.085, a net interest cost of about 1.65%, on the bonds divided as follows: \$80,000 as 2s, due on Nov. 1; \$5,000 in 1951 to 1956; \$20,000, 1957 and 1958, and \$10,000 in 1959, the remaining \$120,000 as 1½s, due on Nov. 1; \$10,000, 1960 to 1963; \$30,000, 1964, and \$25,000 in 1965 and 1966.

NORTH DAKOTA

Portland, N. Dak. Bond Sale—The \$20,000 coupon water main extension bonds offered for sale on Oct. 28-v. 154, 647-were purchased by the North Dakota Board of University and School Lands as 2s, at par, according to E. R. Foss, City Auditor. Dated Nov. 1, 1941. Due on Nov. 1, 1961, optional on and after Nov. 1, 1946. Interest payable M-N.

(This notice corrects the report given in our issue of Nov. 1-v. 154, p. 876.)

OHIO

Bonds Defeated—At the recent general election the voters refused to sanction an issue of \$100,000 water system purchase revenue bonds.

Akron, Ohio

Bonds Deceated-At the recent general election the voters defeated propositions calling for the issuance of \$2,950,000 bonds, as follows: \$1,000,000 street paving, \$800,000 sewers, \$600,000 bridge construction, \$500,000 fire stations and equipment and \$50,000 work

Belmont County (P. O. St. Clairs-

1937

ville), Ohio Bond Call—E. E. Taylor, Clerk of County Commissioners, calls for payment on Dec. 1, 1941, poor relief deficiency bonds, Nos. 134 to 150, dated April 1, 1940, maturing June 1, 1949 and/or Dec. 1,

Berea, Ohio Bond Sale-The \$150,000 electric light and power plant and system extension bonds offered Nov. 1—v. 154, p. 647—were awarded to Hayden, Miller & Co. of Cleveland, as 13/4s, at par, plus premium of \$1,185, equal to 100.79, a basis of about 1.60%. Dated Sept. 1, 1941, and due \$10.-000 annually on Oct. 1 from 1943 to 1957 incl. Bonds are callable in the inverse order of their maturity on any interest payment date on or after Oct. 1, 1948. Bonds are payable solely from revenues of the municipal utility system and are not a general obligation of the city. Second high bid of 100.432 for 13/4s was made by Ryan, Sutherland & Co. of

Cincinnati, Ohio Voters Reject Municipal Own-124,502,309 111,557,727 117,141,591 ership Proposal—The proposed amendment to the city charter providing for acquisition of the properties of the Cincinnati Gas & Electric Co. or construction of a plant from the proceeds of the sale of revenue bonds was rejected by the voters at the Nov. 4 election-v. 154, p. 900.

Results Of Voting On Bond Issues—Henry Urner, City Auditor, reports that the voters on Nov. 4 apparently authorized an issue of \$1,500,000 seneral hospital bonds. Proposals to issue \$4,000,000 street improvement and \$2,000,000 playground bonds were defeated.

Cincinnati City School District.

Ohio

Bonds Defeated—The proposal
o issue \$2,000,000 vocational

essary 65% of favorable votes.

Hamilton County (P. O. Cincinnati), Ohio

Results Of Voting On Bond Measures—E. J. Dreihs, Clerk of the Board of County Commissioners, states there is a possibility that the issue of \$3,500,000 county home bonds was authorized by the voters at the Nov. 4 election. Proposals calling for the issuance of \$1,000,000 court house addition bonds, \$650,000 airport and \$400,000 juvenile detention home were rejected.

Huron School District, Ohio

Bond Offering-Beulah Lindsey, Clerk of the Board of Education, will receive sealed bids until noon on Nov. 18 for the purchase of \$339,000 3% coupon building bonds. Dated Dec. 15, 1941. Denom. \$1,000. Due \$7,000 on June 1 and Dec. 1 from 1943 to 1960, incl.; \$7,000, June 1, and \$8,000 Dec. 1, 1961; \$7,000, June 1 and Dec. 1, 1962; \$7,000, June 1 and \$8,000 Dec. 1, 1963; \$7,000, June 1 and Dec. 1 in 1964 and 1965, and \$7,000 June 1 and \$8,000 Dec. 1, 1966. Principal and interest (J-D) payable at the Ber-lin Heights Banking Co., Huron. A certified check for \$3,390 must accompany each proposal. Legality approved by Squire, Sanders & Dempsey of Cleveland.

Lemon Township Rural School District (P. O. Monroe), Ohio Bond Sale—The issue of \$55,000

Bond Election—The issuance of

TENNESSEE

Chattanooga, Tenn.

Bond Exchange Offer-The second step in the debt equalization program of the above city is now being brought to the attention of the bondholders. This latest step calls for the exchange of \$2,580,000 of the city's outstanding bonds maturing during the fiscal years ending June 30. 1945, 1950, 1951, and 1952, for bonds maturing as shown in the offer of exchange. The new bonds will bear the same interest rate as the old bonds to the date of maturity of such bonds and thereafter at the rates of 23/4%, 3% and 31/2% to the date of maturity of the new bonds.

The entire program involves the rearrangement of a total of \$6,135,000 outstanding bonds, the first step in which was recently completed by the sale of \$300,000 debt equalization bonds \$150,000 of which carried an interest rate of 11/2% and \$150,000 at the rate of 2%.

Following the completion of the exchange set forth in the current offer it is intended that the balance of the program involving \$3,255,000 outstanding bonds will be completed by subsequent exchange offers.

Copies of the formal offer of exchange and letters of transmit-tal may be obtained from Wainwright, Ramsey and Lancaster at 120 Broadway, New York, N. Y.. which firm is acting as the city's fiscal agent in the consummation of the debt equalization program.

Hull, Que.

Bond Sale-An issue of \$137,-000 33/4% improvement bonds Co. of Toronto, at a price of 99.52.

Montreal, Que. Provisions Of Refinancing Program Discussed - In connection with the previous report in these columns-v. 154, p. 880-regarding the proposed plan for refinancing the city's indebtedness. we learn that the project is calculated to involve an annual was stated in the official summary dated Oct. 22 to be in brief as follows:

Issuance of new 35-year 4% debentures in exchange for most of the existing Montreal securities held by the public.

Settlement of bank loans by the issue of new 31/2% serial deben-ties of the city are to be settled ginning in 1942.

debentures by maturity, that is,

debentures at present held by the 1942 to \$4,700,000 in 1951. They city's sinking fund.

service charges will ease the city's budget difficulties," the summary held. "It also means that no increase in taxation from the bank debt, or as collateral securpresent levels will be necessary ity for treasury bills.

to 1947, \$25,000 in 1948, \$26,- about 1.48%, according to R. C. annual principal and interest re- in order to rehabilitate the city's quirements will be approximately finances. The reduction in debt charges plus the savings resulting from economy measures which have and are being put into effect should eliminate the possibility of operating deficits and enable the city to finance a reasonable amount of capital works

Bank loans and other liabilities are to be settled by the issuance of consolidation debentures series A, while holders of existing debentures are to receive new consolidation debentures series B. The new ones are to be dated Oct. 31, 1941, the date as of which the refunding is to be effective.

Most of the consolidation debentures series B will bear in-terest at the rate of 4%, though there are some exceptions to this. Present 21/2%, 3% and 31/2% debentures are to be exchanged for new debentures bearing the same rate to their respective maturities and 4% thereafter. For instance, a holder of an existing 3% bond due 1947 will receive a new debenture due in 1976 which will bear 3% interest until 1947 and 4% thereafter.

Holders of matured debentures and of non-matured 4% debentures are to receive new 4% consolidation debentures.

Existing debentares bearing higher rates than 4% are also to receive new 4% debentures. In addition, their holders are to be paid a cash payment of one-half of premium resulting from the valuation of such debentures as at Oct. 31, 1941, for their then unexpired terms to yield 4% on a semi-annual basis.

The present 3% permanent stock of the city is to remain undisturbed. Its 7% permanent stock. however,, is to be retired as at Oct. 31, 1941, by a cash payment of 120% of face value, plus accrued interest. The amount of 3% permanent stock outstanding is \$6,842,056. The principal amount of the 7% stock to be retired is \$411,200.

Gross funded debt of the city at present time approximates \$265,000,000. Of this amount the city's own sinking fund holds about \$46,000,000 and these are to be canceled. Allowing for the cancellation of Montreal bonds held by the sinking fund, the fact that the 3% permanent stock is not to be distributed and that the 7% is to be retired, the amount was sold recently to A. E. Ames & of the new consolidation debentures series B will be \$212,000,000.

Whereas most of the existing debentures are non-callable the new consolidation debentures series B are to be callable at par, except that no call is to be made for refunding purposes prior to Oct. 31, 1951. Under the debt re-\$4,000,000 in bond principal and redemption charges. The program debentures are to be redeemed by purchase in the open market or by public or private tender at a price no greater than par, plus accrued interest, or by call at face value and accrued interest.
